

BAY AREA
AIR QUALITY
MANAGEMENT
DISTRICT

APPROVED BUDGET FOR FISCAL YEAR ENDING 2012

# The Bay Area Air Quality Management District is committed to

# PROTECT AND IMPROVE PUBLIC HEALTH, AIR QUALITY, AND THE GLOBAL CLIMATE

### **CORE VALUES**

**Excellence** Air District programs and policies are founded on science,

developed with technical expertise, and executed with

quality.

**Leadership** The Air District will be at the forefront of air quality.

improvement and will pioneer new strategies to achieve

healthy air and protect the climate.

**Collaboration** Involving, listening, and engaging all stakeholders,

including partner agencies, to create broad acceptance

for healthy air solutions.

**Dedication** Committed staff that live and believe the Air District's

mission.

**Equity** All Bay Area residents have the right to breathe clean air.

### **CONTENTS**

#### **BUDGET MESSAGE**

Jack P. Broadbent, Executive Officer/APCO

#### **EXECUTIVE SUMMARY**

This document presents the approved budget for the Bay Area Air Quality Management District (District) for Fiscal Year Ending (FYE) 2012. The District continues its commitment to fulfill its mission, goals and objectives, through activities which focus on core and mandated programs, fiscally conservative internal controls, long range financial planning and the development of short and long-term sustainable approaches toward achieving cleaner air to protect the public's health and the environment.

The approved budget for FYE 2012 reflects the priorities established at the Board of Directors retreat of January 19, 2011, which includes maintenance and enhancement of District core functions as well as work in the following areas:

- Production System
- Agricultural Engine Rule
- Metal Melting Rule
- Community Development Guidelines
- General Particulate Matter Rule
- Joint Policy Committee Action Plan
- Community Risk Reduction Plans
- Centralized Information and Records Management
- Facility Relocation
- Bay Area Business Assistance Program
- New Source Review Rule

Total fee revenue for FYE 2012 is projected to increase, on average, by approximately 5% in accordance with the approved fee schedule increase from the Cost Recovery Study updated in the current year. The budgeted amount for County revenue reflects no increase over last year based upon FYE 2011 County revenue information. Funding for the Transportation Fund for Clean Air (TFCA) and the Mobile Source Incentive Fund (MSIF) will be fully expended for eligible projects and costs of administration.

The total approved General Fund budget expenditures for FYE 2012 of \$61.1 million represents a decrease of approximately \$1.3 million or 2.07% of the amended FYE 2011 budget. The approved Consolidated budget expenditures of \$72.4 million (excluding grant distributions), increased by approximately \$293 thousand, or 0.41%, primarily due to the following:

- \$391,780 increase in Compensation costs, including District-provided benefits (no new positions or FTE were added)
- \$165,256 increase in Services and Supplies expenditures
- \$262,913 decrease in Capital outlay

The approved budget is balanced, with the inclusion of \$894,536 thousand transferred from the Reserve for Economic Uncertainties. The District's total Fund Balance has grown from approximately \$2.0 million at the end of FYE 1998 to a total fund balance of approximately \$12.9 million at June 30, 2010. The District is on sound financial footing and has total reserves available, including Board designations, to operate for a minimum of three months.

#### **REVENUES AND AVAILABLE FINANCING**

Details of the revenues and available financing from FYE 2005 (actual revenues) through FYE 2012 (projected revenues) are displayed in Appendix D, Figure 1.

#### Fee Revenue

The District will continue the process of implementing annual fee increases as allowed under the *Health* and *Safety Code*, which governs permit fee increases. In FYE 2012, the approved fee schedule

increased at an average overall rate of 10.0%. Similar increases are projected for both FYE 2013 and 2014.

#### County Revenue

The County revenue budget is based on property values in the Bay Area. The District's actual County revenue for FYE 2010 was \$21.4 million, which was \$1.4 million, or 6.9%, over the FYE 2010 Adopted Budget. The amount budgeted for FYE 2012 reflects no increase from the FYE 2011 budgeted County revenue reflecting the continued downturn in the economy and the uncertainty of property values in the Bay Area.

#### Other Sources of General Fund Revenue

Federal grants, from EPA and other federal agencies, decreased by 11.35% or \$367,328. As in the past, should the District receive supplemental Federal grants, the amounts will be presented to the Budget and Finance Committee for budget approval. The State Subvention grant for FYE 2011 is budgeted at \$1.7 million, identical to the prior year, based on state projections and actual collections. Penalties and Settlements are budgeted at the same level as last year at \$1.5 million.

#### **INCENTIVE REVENUE**

#### Transportation Fund for Clean Air (TFCA)

Funds available through TFCA are restricted and result from a \$4 surcharge on motor vehicle registration fees for vehicles registered in the District's Counties. The TFCA revenue is distributed in grants to public agencies within the region, to fund qualifying projects. The District expends a portion of the funding to cover the costs of administration of the grants program, and to fund qualifying District-sponsored and managed projects.

The TFCA-enabling legislation restricts District use of the funds to eligible projects that reduce air pollution from vehicular sources such as Smoking Vehicle, and the Vehicle Incentive Program (VIP). These projects did not exist in the District prior to receipt of the Transportation Fund for Clean Air revenue. Therefore, this revenue source is relevant when assessing the District's complete level of activity, but is not relevant when assessing the impact of the revenue stream on fulfilling the District's non-transportation air quality mandates. The revenue is segregated in the Special Revenue Fund, which is separate from the General Fund budget, for accounting and comparison purposes to pre-TFCA budgets.

#### Mobile Source Incentive Fund (MSIF)

Funds available through MSIF result from the collection of an additional \$2 surcharge on motor vehicle registration fees, as allowed by Assembly Bill (AB) 923 in 2004. The District manages these funds to provide incentives for the implementation of eligible projects within the region by public and private project sponsors. The District expends a portion of the funds collected for administrative purposes and provides pass-through for the remainder of the funds to project sponsors that implement eligible projects or programs approved by the District. Revenues from this funding source are separate from the General Fund budget for accounting purposes.

#### Carl Mover Program (CMP)

Funds available through the CMP Program are a result of State legislation, and are administered through the California Air Resources Board (CARB). The funds are available through year 2014 and are expended within the region for eligible projects that fall within the CMP guidelines.

#### Regional Bikeshare Program

On October 27, 2010, the Air District was awarded \$4.291 million in funding by the Metropolitan Transportation Commission (MTC) to develop and implement a pilot Bike Share program in the Bay Area. The pilot will deploy approximately 1,000 shared bikes along the Peninsula transportation corridor at five locations in San Francisco, San Mateo, and Santa Clara counties. The Program is anticipated to be developed over a 12 month period and will be followed by an additional 12 - 24 months of operations (testing) and data collection. Additional funding for this program is provided by the Air District's Transportation Fund For Clean Air (\$1.4 million), partners, and revenue from user fees.

#### Car Sharing Incentive Program

On November 29, 2010, the U.S. District Court awarded the Bay Area Clean Air Foundation \$546,097 from a Reformulated Gas Settlement Open Grants Program. The program, administered by the Air District in partnership with City CarShare, will seek to convert 10 hybrid electric vehicles to plug-in hybrid

electric vehicles, deploy the vehicles as part of City CarShare's fleet to promote car sharing in the Bay Area, evaluate deployment of plug-in electric vehicles, and disseminate best practices for carsharing. Under the program, incentives will be offered to encourage use of the plug-in vehicles for short city trips which will maximize use of electric drive and thus maximize emissions and fuel benefits.

#### Regional Electric Vehicle Deployment Program

On August 4, 2010, the Bay Area Air Quality Management District Board of Directors allocated \$5 million to support Electric Vehicle (EV) infrastructure projects. The Air District's support of EVs will include the deployment of infrastructure charge spots (in homes and public locations) through an EVSE Charging Deployment Incentives Program. Additionally, there is a project coordination component to ensure that all of the program elements are executed effectively.

#### California Goods Movement Bond (CGMB)

In 2007, the California State Legislature enacted Senate Bill 88, which secured \$1 billion to protect public health from emissions associated with goods movement. During FYE 2012, the District expects to receive approximately \$14.9 million for this program. These funds will be used to retrofit trucks, install grid-based shore power at the Port of Oakland, replace high polluting public school buses, retrofit middle aged diesel buses, and marine and locomotive retrofit projects, in both FYE 2012 and FYE 2013. Further receipt of Goods Movement funds will depend on California's ability to fund the program during FYE 2012.

#### **OPERATING EXPENDITURES**

Details of the expenditures from FYE 2004 (actual expenditures) through FYE 2012 (projected expenditures) are displayed in Appendix E, Figure 2.

From FYE 2004 through FYE 2012, total consolidated expenditures, excluding grant program distributions, rose at an average rate of 6.3% per year from \$44.56 million to \$72.36 million.

#### PERSONNEL EXPENDITURES

The approved budget does not include any new positions or FTE. The budget does include modifications to District positions that recognize increased organizational efficiencies, title clarification, and position upgrades.

#### **CAPITAL EXPENDITURES**

The approved

budget for FYE 2012 funds capital expenditures from current revenue for a total of \$2.1 million and is distributed across General Fund programs. Table VIII provides details of the individual capital items.

#### PLANNING FOR THE FUTURE

Future projections anticipate adequate revenue to meet projected expenditures with the assumption of continued attention to cost and permit fee analysis. However, due to the uncertain fiscal situation at the State level and external factors affecting the economy, the use of reserves may be required in the future to balance budgets and/or for day-to-day operations.

The loss of Superfund status in the District's PERS retirement account necessitated budgeting for the employee contributions, which is in accordance with the Employee Association Memorandum of Understanding (MOU). In anticipation of this status change at PERS, the District set aside funds in a designated reserve for PERS funding. Through a partial transfer from this reserve, the funds are used for this budget item.

Staff will continue to identify and maintain a level of effort to achieve District mandates and continually monitor the pattern of revenues versus expenditures. Maintaining a strong financial position, operating cash requirements, and continued assessment and refinement for measuring achievements, preparation and availability of financial data, and personnel resource allocation will assist in guiding the District towards meeting its mission, goals and objectives.

### CAPITAL EXPENDITURES

### TABLE IX CAPITAL EXPENDITURE SUMMARY

The list below includes all capital expenditures budgeted for FYE 2012.

|     | •  |             |                     |           |                  |                   |
|-----|--|-------------|---------------------|-----------|------------------|-------------------|
|     | <u>Description</u>                                 | <u>PGM</u>  | Capital Type        | Amount    | Program<br>Total | Division<br>Total |
| 1.  | Title V Permitting Automation Systems              | <b>72</b> 5 | Computer & Network  | \$360,000 |                  |                   |
| 2.  | Enforcement Inspector Tablet Computing             | 725         | Computer & Network  | \$322,000 | •                | •                 |
| 3.  | Capital Lease for Communication Equipment          | 726         | Computer & Network  | \$368,000 |                  |                   |
| 4.  | Emission Train Browser                             | 725         | Computer & Network  | \$180,000 |                  |                   |
| 5.  | Registration Program Integration                   | 725         | Computer & Network  | \$160,000 | \$1,390,000      |                   |
| 6.  | Refresh of Multifunction Printers                  | 726         | Computer & Network  | \$35,000  |                  |                   |
| 7.  | Improvement of Development Systems                 | 726         | Computer & Network  | \$120,000 |                  |                   |
| 8.  | Expansion of Disaster Recovery to Sacramento       | 726         | Computer & Network  | \$210,000 | \$365,000        | \$1,755,000       |
| 13. | Field Portable GC/MS System for Enforcement Use    | 802         | Lab & Monitoring    | \$127,954 |                  |                   |
| 14. | Air Monitoring Instruments/Parts/Repairs           | 802         | Lab & Monitoring    | \$109,456 | \$237,410        |                   |
| 15. | Laboratory Instrument and Upgrade                  | 803         | Lab & Monitoring    | \$70,834  | \$70,834         |                   |
| 16. | Replacement of five (1) Source Test Analyzers      | 804         | Lab & Monitoring    | \$13,700  |                  |                   |
| 17. | Ford Econoline E-350 Extended Van                  | 804         | Motorized Equipment | \$38,600  | \$52,300         | ,                 |
| 19. | Analytical Instrument for Quality Assurance Audits | 807         | Lab & Monitoring    | \$14,000  | \$14,000         | \$374,544         |
|     | Total Capital Expenditures                         |             |                     |           |                  | \$2,129,544       |

# TABLE X CAPITAL EXPENDITURE DETAIL

|     | Item Description  | Cost      | Program /<br><u>Capital</u>           |
|-----|---|-----------|---------------------------------------|
| 1.  | <u>Title V Permitting Automation Systems</u> The new functionality will allow permit engineers to shorten their evaluation time and improve consistency in regulating our largest polluting facilities.                                 | \$360,000 | Type<br>725/<br>Computer &<br>Network |
| 2.  | Enforcement Inspector Tablet Computing Inspectors require tablet computers to record compliance and enforcement information electronically to improve efficiency in the field and reduce resources required to handle manual paperwork. | \$322,000 | 725/<br>Computer &<br>Network         |
| 3.  | Capital Lease for Communication Equipment Yearly capital lease cost for District-wide telecommunication infrastructure including servers, routers, security appliances, software, and telephones.                                       | \$368,000 | 726/<br>Computer &<br>Network         |
| 4.  | Emission Train Browser The Emission Train Brower will allow staff and members of the regulated community to visualize their equipment including material usages and emissions to provide for more consistent and efficient permitting.  | \$180,000 | 725/<br>Computer &<br>Network         |
| 5.  | Registration Program Integration The District has implemented online registration issuance and renewal systems to support new rules and regulations while the Production System is being implemented.                                   | \$160,000 | 725/<br>Computer &<br>Network         |
| 6.  | Refresh of Multifunction Printers This is a request for purchasing a new multifunction printers for engineering and enforcement as well as a replacement for one of the older multifunction printers in the District.                   | \$35,000  | 726/<br>Lab &<br>Monitoring           |
| 7.  | Improvement of Development System These funds would go into creating a streamlined solution for continued development and testing of our virtualized environments.  | \$120,000 | 726/<br>Computer &<br>Network         |
| 8.  | Expansion of Disaster Recovery to Sacramento Expansion and improvement of disaster recovery remote sites. In the event of a disaster we would need this to keep critical functions of the District operational.                         | \$210,000 | 726/<br>Computer &<br>Network         |
| 9.  | Field Portable GC/MS system for Enforcement Use Used to identify and potentially determine concentrations of odorous and toxics substances and minimize sample loss due to current sampling methodologies.                              | \$127,954 | 802/<br>Lab &<br>Monitoring           |
| 10. | Air Monitoring Instruments/Parts/Repairs These purchases will improve data quality due to enhanced analyzer serial data capabilities that are compatable with the new Data Management System.   | \$109,456 | 802/<br>Lab &<br>Monitoring           |
| 11. | Laboratory Instrument and Upgrade Laboratory equipment will be used to replace or upgrade equipment that has reached the end of its useful service life.  | \$70,834  | 803/<br>Lab &<br>Monitoring           |

12. Replacement of five (1) Source Test Analyzers \$13,700 804/ This analyzers have reached the end of its useful service life. Lab & Monitoring 13. Ford Econoline E-350 Extended Van 804/ \$38,600 Source Test Van used for particulate testing is 10 years old and Motorized has had major repair issues over the past 12 months. Equipment 14. Analytical Instrument for Quality Assurance Audits \$14,000 807/ This analytical instrument will be used to replace an instrument Lab & that is over 7 years old and has become unreliable for Quality Monitoring Assurance work. This instrument is carried in surveillance vehicles and is exposed to adverse environmental conditions and vibrations, which shortens lifespan.

**Total Capital Expenditures** 

\$2,129,544

### PERSONNEL ALLOCATION CHANGES

(page intentionally left blank)

## TABLE XI (A) FULL-TIME-EQUIVALENT CHANGES

The following FTE permanent position changes are being recommended for FYE 2012:

| Position Division  There will be no changes to the total number of FTE next year | Increase<br>to FTE | Decrease<br>to FTE |      |
|--|--------------------|--------------------|------|
|  |                    |                    |      |
| TOTAL FTE CHANGE:  |                    | 0.00               | 0.00 |
| NET POSITION CHANGE  | ·<br>·             | 0.00               | 0.00 |

# TABLE XI (B) POSITION UPGRADES/DOWNGRADES

The following position upgrades, downgrades and reclassification changes are being recommended for FYE 2012:

|   | Position Change  | Organizational<br>Unit |
|---|--|------------------------|
|   | Reclassification - Secretary to Administrative   | EVEC                   |
| ' | Secretary Air Continue Air Cont | EXEC                   |
| 2 | Reclassification - Air Quality Instrument Specialist II to Supervising Air Quality Instrument Specialist   | TECH                   |
|   | Reclassification - Senior Air Quality Instrument Specialist to Supervising Air Quality Instrument  |                        |
| 3 | Specialist   | TECH                   |
| 4 | Reclassification Supervising Air Quality Engineer to Senior Air Quality Engineer   | TECH                   |
| 5 | Reclassification - Air Quality Engineer II to Senior Air Quality Engineer  | TECH                   |
| 6 | Reclassification - Principal Air & Meteorological<br>Specialist to PR Air Quality Engineer   | TECH                   |
|   | Reclassification - Senior Air Quality Meteorologist to   |                        |
| 7 | Supervising Air Quality Meteorologist  | TECH                   |
| 8 | Upgrade - 12 % increase for Deputy Air Pollution Control Officer   | EXEC                   |

# PROGRAM NARRATIVES AND EXPENDITURE DETAIL GENERAL FUND

NOTE: DEFINITIONS ARE PROVIDED ON PAGES 186-188, AND ARE AN INTEGRAL PART OF THIS BUDGET DOCUMENT.

(page intentionally left blank)

#### **EXECUTIVE OFFICE**

Under the leadership and direction of the Executive Officer/APCO and the Board of Directors, the Executive Office guides the Bay Area Air Quality Management District (Air District) in meeting its mission of protecting and improving public health, air quality, and the global climate through regulation, incentives, and education. To fulfill this mission, the Air District builds its programs and policies on sound science, develops them with technical expertise and rigor, and executes them with quality. Air District programs and policies include both traditional air quality management approaches and new strategies for achieving clean air.

In FYE 2012, the Air District will continue to implement State and Federal regulations and directives, and will also continue to implement and develop the following key initiatives:

- Rule Development including amendments to the New Source Review Rule
- Community Development Guidelines
- Community Risk Reduction Plan
- Refine CEQA Tools
- Clean Air Foundation
- Facility Relocation
- Air District Conference
- Wood Smoke Program
- Spare the Air Everyday Campaign
- Public Engagement Plan
- Strategic Vision

The Executive Office is responsible for developing and maintaining strategic partnerships to achieve clean air. These partnerships include but are not limited to collaboration with: community groups, non-profits, peer regional agencies (Metropolitan Transportation Commission, Association of Bay Area Governments & Bay Conservation and Development Commission), regulatory agencies (U.S. Environmental Protection Agency and California Air Resources Board), and associations (California Air Pollution Control Officers Association, Air and Waste Management Association & National Association of Clean Air Agencies), as well as the State Legislature. In FYE 2012, these key partnerships will also address regional coordination of climate protection activities, in particular, implementation of State initiatives such as SB375 and AB32 at the regional level.

Executive Office staff provides the Board of Directors, the Hearing Board, and the Advisory Council quality administrative support in the conduct of its business by performing duties mandated by State law, rules and Board directives.

### **Executive Office** 104 Managing Division: Executive **Contact Person:** Jack P. Broadbent Program Purpose: Administration and Direction of District Programs. **Description of Program:** \*Preparation of District Budget \*General Administration of District Activities \*Policy Review \*Interpretation and Implementation of Board Directives \*Implement Legislative Strategy \*Attain District Goals **Justification of Change Request:** No change. **Activities** Interpret and oversee implementation of Board directives and policies. Develop policy initiatives to meet District goals and objectives. Prepare budget FYE 2013. Coordinate development of District's legislative agenda and implement strategy for achieving District's legislative goals. Manage the Board and Committee processes. Coordinate District activities with staff and stakeholders. Work with District Counsel to keep current on all notice of violation settlements. Continue to integrate Climate Protection into District functions. Monitor actions of and serve as liaison to regional governmental agencies (e.g. MTC, ABAG), federal and statewide governmental organizations (e.g. U.S. EPA, CARB, CAPCOA), and representatives of the regulated community. Compliance and enforcement actions.

| Major Objectives   | Delivery<br>Date |
|--|------------------|
| Bay Area Clean Air Foundation  | Ongoing          |
| Community Development Guidelines   | 6/30/2012        |
| Refine CEQA Tools  | Ongoing          |
| Facility Relocation Efforts  | Ongoing          |
| Rule Development and Amendments  | Ongoing          |
| Community Risk Reduction Plans   | Ongoing          |
| Language Access Policy and Public Engagement Plan                        | 6/30/2011        |
| Community Grant Program Administration                                   | 6/30/2011        |
| Issue all non-Title V permits on a timely basis (within a 45 day period) | Ongoing          |
| Cost Recovery Initiative   | 5/30/2011        |

|  | •                |
| Description of Program:  |                  |
| The Hearing Board is an independent quasi-judicial body appointed by the Board of Directors to     |                  |
| questions on air pollution, receive evidence and make findings of fact. It grants or denies varian |                  |
| authority to grant permits denied by the Air Pollution Control Officer, and may continue the susp  |                  |
| reinstatement or revocation of an existing permit. The Hearing Board may also issue orders of a    | patement.        |
|  |                  |
| Justification of Change Request:   |                  |
| No change.   |                  |
|  |                  |
|  |                  |
| ACTIVITIES   |                  |
|  |                  |
| Attend all hearings of the Hearing Board.  |                  |
| Develop and maintain Hearing Board calendar and schedules.   |                  |
| Draft selected Orders for Hearing Board review and signature.                                      |                  |
| Maintain Hearing Board matters in IRIS computer systems.   |                  |
| Printing and reproduction of Hearing Board notices.  |                  |
| Maintain Record of Actions (Docket Book).  Prepare and maintain docket files for each hearing.     | <u></u>          |
| Collect Excess Emission fees from Applicants where appropriate.                                    |                  |
| Follow-up on actions resulting from Hearing Board Orders/decisions.                                |                  |
| Process incoming documents and inquiries.  | ·                |
| Make arrangements for all off-site hearings.   |                  |
| Research, compile and prepare reports for presentation to the Board of Directors and others as     | requested        |
| by the Hearing Board.  | , - 4            |
| Hearing Board members attendance at Hearing Board Conferences and CARB Trainings.                  |                  |
| Maintain Hearing Board Calendar on District's website.   |                  |
| Maintain Hearing Board decisions (Orders) on website.  |                  |
| Arrange for Hearing Board attendance at National Judicial College.                                 |                  |
| Arrange for attendance of two Hearing Board members at annual AWMA Conference.                     |                  |
| Prepare Hearing Board Dockets for scanning and scan such documents.                                |                  |
| Record and prepare monthly expense reports for each Hearing Board member.                          |                  |
| Maintain the District's website as it pertains to the Hearing Board Calendar.                      |                  |
| Maintain the District's website as it pertains to the final decisions/Orders of the Hearing Board. |                  |
| Maintain the District's website as it pertains to the Hearing Board Membership.  MAJOR OBJECTIVES  | Deliver          |

#### Program Purpose:

The Advisory Council makes recommendations and reports to the Board of Directors on the matters considered at its meetings that the Council determines to be advisable. The Advisory Council considers and reports to the Board on specific matters which may be referred to the Council by the Board of Directors or by the Executive Committee of the Board of Directors. The Advisory Council considers the Board of Directors matters which come before the Council to arrive at the best advice upon which the Council may agree, which advice may include the technical, social, economic, environmental and fiscal aspects of such issues.

#### Description of Program:

The Advisory Council is comprised of 20 members, appointed by the Board of Directors, representing public health agencies, private organizations active in conservation or protection of the environment, academia, regional park districts, park and recreation commissions, public mass transportation systems, agriculture, industry, community planning, transportation, registered professional engineers, general contractors, architects, and organized labor. The Council advises and consults with the Board of Directors and Executive Officer, and makes recommendations and reports on matters that affect both policy and the legislative agenda. The Council meets nine (9) times per year. In January of each year, the Council meets with the Executive Officer to consider topics for four (4) symposium format meetings, each on a specific topic. Each symposium meeting includes presentations by three or four speakers who are experts in the specific topic. Each symposium meeting is followed by a meeting at which the presentations, materials and recommendation received are discussed and a report is prepared for the Board of Directors.

#### Justification of Change Request:

No change.

#### ACTIVITIES

Attend all regular and Committee meetings of the Advisory Council.

Prepare comprehensive, concise summary minutes of each meeting for Advisory Council/Committee approval.

Prepare Advisory Council/Committee agendas and supporting material for duplication and distribution.

Record and prepare quarterly expense reports for each Council member.

Update District website with Advisory Council rosters, agenda packets and approved minutes.

Prepare and maintain Advisory Council/Committee meeting files for each meeting.

Maintain the District's website as it pertains to Advisory Council agenda packets and approved minutes.

Tape record each meeting.

Maintain the District's website as it pertains to the Advisory Council Roster and Committees.

Plan and prepare for Advisory Council luncheons and Committee meetings.

Coordinate registration for four (4) Advisory Council members to attend AWMA Conference.

Prepare material for annual Advisory Council retreat; attend and take minutes.

Provide assistance to Advisory Council Applicant Selection Working Group (compile applications and arrange for candidate interviews).

Prepare Advisory Council meeting and Committee packets for scanning and scan such matters.

| MAJOR OBJECTIVES   | Delivery<br>Date |
|--|------------------|
| Coordinate activities of the Advisory Council.   | Ongoing          |
| Conduct three (3) symposium meetings, based on the topics selected at the Retreat in January 2011.   | Ongoing          |
| Conduct two (2) discussion meetings, one after each symposium meeting to discuss the presentations, materials and recommendations received at the symposium meeting, and prepare and present a report to the Board of Directors. | Ongoing          |

### **LEGAL SERVICES DIVISION**

The Air District Counsel provides legal advice, counseling and representation to the Board of Directors and its Committees, the Executive Officer/APCO, District staff, and the Advisory Council in the execution of their respective statutory mandates and responsibilities. The District Counsel also represents, or manages outside counsel, representing the Air District in all litigation involving the Air District and in matters before the District's Hearing Board. The Air District Counsel primarily practices in the areas of general civil law, Federal, State and local air pollution control law, administrative law, Federal and State civil litigation, government law and the California Environmental Quality Act (CEQA).

For FYE 2012, the Air District Counsel will continue to implement significant changes in the Mutual Settlement and Civil Penalty Programs; such efforts over the past several fiscal years have been very effective in improving these programs. Efforts by District Counsel's attorneys and the Mutual Settlement Program staff have resulted in a nearly complete effort of resolving the existing inventory of enforcement cases. In addition, implementation of a Small Claims Court program for some enforcement cases in which settlement could not be reached through pre-litigation negotiation has been highly successful. The efforts to be undertaken this fiscal year are once again designed to properly implement legal requirements regarding settlements, deter repeat violations, impose civil penalties commensurate with the nature of the air quality violation involved, remove the economic benefit of violations, and encourage rule compliance by the regulated community. This fiscal year, Air District Counsel will continue the development and improvement of the Mutual Settlement Program. The Air District Counsel will also continue to coordinate with, and provide training for, Compliance and Enforcement Division staff regarding case development. These efforts will ensure that effective enforcement cases are built from the beginning of investigations, and will result in more effective settlements and prosecutions. The Air District Counsel's attorneys will continue their focus on civil penalty enforcement investigations and actions, including civil litigation and, where appropriate, Hearing Board enforcement proceedings.

Air District Counsel's attorneys will continue to advise District staff on rulemaking, permitting and air quality planning activities. In this regard, Air District Counsel will continue its efforts to coordinate closely with the District's staff on these issues to minimize challenges to District decision-making. District Counsel will also continue to represent the Executive Officer/APCO before the Hearing Board, counsel the Board of Directors and its Committees as to their legal authority and duties and interact with EPA, CARB, other Air Districts and private attorneys on various matters. District Counsel will continue to use outside labor/employment law firms to handle the specialized practice of labor and employment law counseling, negotiations and litigation. Due in large part to the efforts of attorneys in the District Counsel's office, the vast majority of the litigation pending against the District was resolved in FYE 2005. Cases filed in the intervening years have been more efficiently addressed and resolved. In addition to continuing to provide pre-litigation counseling, and to handle litigation matters internally, the District Counsel will continue to manage the efforts of outside counsel as appropriate in litigation, employment, and specialized counseling matters.

The Air District Counsel will continue to provide the Board of Directors, the Executive Officer/APCO and District staff with exemplary legal counsel and representation.

| Legal  |                  |
| Contact Person:  | ·                |
| Brian C. Bunger  |                  |
| Program Purpose:   |                  |
| To represent the Air District in all proceedings involving variances, orders of abatement, permit ag   | peals            |
| and permit revocations before the Air District's Hearing Board.  |                  |
| Description of Program:  |                  |
| The Air District Counsel provides all necessary legal representation and counsel for the District in   |                  |
| variance, order of abatement, permit appeal and permit revocation actions before the Air District's  | : Hearing        |
| Board. Permit holders may seek variance relief from the Hearing Board when they are unable to  | meet a           |
| District rule or permit requirement as long as state law requirements are met. The District may se   | ek orders        |
| of abatement against facilities for on-going violations, or seek to revoke those facilities' permits.  | The Air          |
| District Counsel also represents the District in appeals by applicants or third parties to permit, em reduction credit, and interchangeable emission reduction credit decisions made by the District. In | ISSION           |
| the Air District Counsel works with the Hearing Board's members and staff to improve the Hearing   |                  |
| rules and procedures.  | , Douis o        |
|  |                  |

## **COMMUNICATIONS AND OUTREACH OFFICE**

The Communications and Outreach Office (the Communications Office), formerly Public Information & Outreach, consists of two sections: the Public Information/Media team and the Community Outreach team. The Communications Office develops and delivers public information messages through the media and outreach to support the Air District's priority programs.

The Communications Office educates the public about climate change and clean air choices through the Spare the Air Every Day campaign. The office focuses on the reduction of particulate pollution in the winter and ozone reduction in the summer through our seasonal Spare the Air campaigns. In addition, we promote transit use, and the upgrade to cleaner emission vehicles through the Air District Employer Program and more. The Communications Office further supports the District through our Regional Resource Teams, Youth Outreach Programs, Community Air Risk Evaluation workshops, and developing "grassroots teams" consisting of environmental groups, employers, public agencies and other interested parties to help bring about air quality education and improvements.

In 2009, the Communications Office expanded its community outreach work by adding three elements to its program: the "Protect your Climate" 4<sup>th</sup> and 5<sup>th</sup> grade curriculum, Community Grant program and Air District coordination of event and air program sponsorships will now all be operated out of the Communications Office.

The goal of the Communications Office is to increase public awareness, encourage behavior change and understanding of the roles that the public, business community and Air District have in reducing air pollution. The Communications Office uses the media, public meetings and inquiries, and internet social networking sites to educate the public about our individual responsibility to reduce air pollution. The section produces the Annual Report and other printed materials and maintains the Spare the Air website.

The Community Outreach team will participate in more than 100 fairs and events to promote the Air District's commitment to achieving clean air. The section will host numerous visitors to the Air District and respond to requests for District speakers. The Community Outreach team will assist in providing outreach regarding Air District grants and incentive funding to communities throughout the Bay Area region.

# **Public Information** 301 Managing Division: Communications & Outreach Office Lisa Fasano

#### **Program Purpose:**

Contact Person:

Act as the Air District's main point of contact with the public and media. Increase public awareness and understanding of air quality issues. Develop effective clean air partnerships with non-profit organizations. Coordinate Air District participation in event sponsorships.

#### Description of Program:

Provide information to and respond to inquiries from the public and the media about air quality issues. Air District programs and the purpose and functions of the Air District though printed materials, promotional materials, websites, social media sites, press releases and publications.

#### Justification of Change Request:

The budget has been reduced from FYE 2011 in accordance with District-wide reduction directive of a minimum of 15% of Service and Supply expenditures.

#### **Activities**

Respond to public inquiries on Air District programs, air quality conditions, policies and regulations. Record air quality forecast daily on the 800-HELP-AIR line.

Maintain up-to-date public information on the Air District websites and social media sites.

Develop, print and distribute publications including plans, brochures, booklets and other Air District documents.

Develop and implement media and communication strategies around major Air District policies and issues.

Track media coverage of Air District.

Manage grant to League of Women Voters for the "Monitor."

Provide development opportunities for staff related to activities and objectives of this program.

Prepare and issue media releases, respond to media inquiries.

# **Community Outreach**

302

Managing Division:

Communications & Outreach Office

Contact Person:

Ana Sandoval

# **Program Purpose:**

Facilitate stakeholder engagement in Air District's programs.

#### **Description of Program:**

This program facilitates engagement of stakeholders, including community residents, advocacy organizations and others, in Air District programs. This program also receives and responds to stakeholder concerns through facilitated dialogue with other District divisions.

#### **Justification of Change Request:**

The budget has been reduced from FYE 2011 in accordance with District-wide reduction directive of a minimum of 15% of Service and Supply expenditures

#### **Activities**

Build and maintain productive working relationships with District stakeholders.

Work with various stakeholders to raise public awareness of air quality issues; inform and educate public regarding District initiatives, rules, regulations and policies.

Receive and respond to inquiries by stakeholders, find and provide responses as appropriate.

Represent District with various stakeholder groups and community organizations focused affected by and interested in air quality issues.

Engage District staff and stakeholders in the development of policies and plans for enhanced outreach.

Guide, support and coordinate public involvement activities for district Divisions.

Actively participate and provide direction to the Air District's nine Air Quality Resource Teams.

Represent the District at events and fairs throughout the region.

Facilitate informational presentations by District staff to community groups, visiting groups, school groups, etc.

Work with MTC and other regional partners on air quality education for K-12 students.

| Major Objectives  | Delivery<br>Date |
|---|------------------|
| Develop Public Engagement Policy and Plan.  | 6/30/2012        |
| Provide District wide assistance, support or guidance on effective public engagement strategies | Ongoing          |
| Develop database of stakeholder groups for District activities.                                 | 6/30/2012        |
| Implement multi-lingual assistance program for District Board and Committee meetings.           | 6/30/2012        |
| Develop Spanish language web portal on baaqmd.gov website.                                      | 6/30/2012        |
| Publicize District's multi-lingual assistance to limited-English proficient audiences.          | 6/30/2012        |
| Coordinate District presence at 30 public events.   | 6/30/2012        |
| Assist in stakeholder engagement process for development of the Indirect Source Rule.           | 6/30/2012        |
| Assist in stakeholder engagement process for development of the Metal Melting Regulation.       | 6/30/2012        |
| Participate in EPA environmental justice training.  | 6/30/2012        |
| Participate in public engagement training.  | 6/30/2012        |
|   |                  |

# Intermittent Control Programs

303

Managing Division:

Communications & Outreach Office

**Contact Person:** 

Lisa Fasano

# Program Purpose:

The Winter Spare the Air program educates the public about the Wood Burning Rule and the health impacts of wood smoke pollution.

#### **Description of Program:**

In 2008, the Wood Burning Rule was passed and wood burning is banned between November and February when a Winter Spare the Air Alert is called. The Winter Spare the Air campaign educates the public about the health impacts of wood smoke and encourages residents to "Check Before You Burn."

#### Justification of Change Request:

The budget has been reduced from FYE 2011 in accordance with District-wide reduction directive of a minimum of 15% of Service and Supply expenditures.

#### **Activities**

Conduct Winter Spare the Air campaign to educate the public about the health impacts of wood smoke. Prepare and issue media releases, respond to media inquiries and plan media events/deskside visits.

Conduct public opinion surveys to evaluate program and measure behavior change.

Manage and update the sparetheair.org website as well as social media sites such as Twitter and Facebook.

Manage notification mechanisms for Winter Spare the Air Alerts, including automated phone messages, online banners and widget.

Manage public outreach campaigns for advertising and media relations.

Provide public outreach at community events throughout the Bay Area.

| Major Objectives  | Delivery<br>Date |
|---|------------------|
| Launch Winter Spare the Air Season.   | 11/1/2012        |
| Execute Winter Spare the Air season public outreach campaign.                                 | 2/29/2012        |
| Develop Winter Spare the Air Season summary.  | 4/1/2012         |
| Issue Winter Spare the Air advisories when air quality is forecast to reach unhealthy levels. | Ongoing          |
| Respond to public inquiries, provide informational speeches and presentations.                | 2/29/2012        |
| Monitor and measure campaign effectiveness via public opinion surveys.                        | 3/30/2012        |

# Smoking Vehicle Program (TFCA)

304

Managing Division:

Communications & Outreach Office

**Contact Person:** 

Lisa Fasano

# **Program Purpose:**

The Smoking Vehicle/800-EXHAUST program encourages Bay Area residents to report smoking vehicles and protect public health by connecting vehicle owners to repair and retirement assistance programs.

#### **Description of Program:**

Spare the Air's 1-800-EXHAUST program helps to remove the financial and informational barriers to repairing or retiring older, polluting vehicles. Bay Area residents are encouraged to report smoking vehicle to connect owners to repair and retirement assistance programs. Outreach to the public is conducted through an advertising and media relations campaign as well as through social media sites such as Twitter and Facebook.

#### **Justification of Change Request:**

No change.

#### **Activities**

Conduct Smoking Vehicle/800-EXHAUST campaign to encourage Bay Area residents to report smoking vehicles and protect public health by connecting vehicle owners to repair and retirement assistance programs.

Prepare and issue media releases, respond to media inquiries and plan media events.

Conduct public opinion surveys to evaluate program and measure behavior change.

Manage and update the smokingvehiclehelp.org website as well as social media sites such as Twitter and Facebook.

Respond to public inquiries regarding the Smoking Vehicle/800-EXHAUST program.

Manage public outreach campaigns for advertising and media relations.

Provide public outreach at community events throughout the Bay Area.

Produce Annual Report on the Program.

# Spare the Air (CMAQ)

305

Managing Division:

Communications & Outreach Office

**Contact Person:** 

Lisa Fasano

#### **Program Purpose:**

The Spare the Air program encourages the public to reduce their driving, a major source of Bay Area air pollution, and promotes the use of public transit, biking, walking, carpooling, trip reduction and other behavior changes that reduce pollution from automobiles.

#### **Description of Program:**

The Spare the Air Program educates Bay Area residents about air pollution and encourages them to reduce their driving and to make other behavior changes to improve air quality. When air quality is forecast to be unhealthy, the Air District issues Spare the Air Smog Alerts. Outreach to the public is conducted through an advertising and media relations campaign as well as through social media sites such as Twitter and Facebook.

#### **Justification of Change Request:**

The 2011 Spare the Air Season will utilize the last of the 2008 award of Congestion Mitigation and Air Quality funding approximated at \$1,000,000 at the time of this writing. CMAQ funding in the Bay Area is allocated by the Metropolitan Transportation Commission. The Metropolitan Transportation Commission has programmed additional CMAQ funding for the Spare the Air program at \$300,000 per year from 2012 through 2014.

#### **Activities**

Conduct campaign to educate the public about individual choices to reduce air pollution.

Prepare and issue media releases, respond to media inquiries and plan media events.

Conduct public opinion surveys to evaluate program and measure behavior change.

Manage and update the sparetheair.org website as well as social media sites such as Twitter and Facebook.

Provide public outreach at community events throughout the Bay Area.

Notify the public of Spare the Air Alerts through AirAlerts, the media, sparetheair.org, baaqmd.gov and social media sites.

Manage public outreach campaigns for advertising and media relations.

| Major Objectives  | Delivery<br>Date |
|---|------------------|
| Work with the Metropolitan Transportation Commission to coordinate joint 2012 campaign. | 9/30/2011        |
| Monitor and measure campaign effectiveness via public opinion surveys.                  | 10/30/2011       |
| Manage the 2011 Spare the Air campaign.   | 10/30/2011       |
| Promote campaign at public events.  | 10/30/2011       |
| Develop the 2012 Spare the Air campaign.  | 6/30/2012        |

# Intermittent Control Programs (TFCA)

306

**Managing Division:** 

Communications & Outreach Office

Contact Person:

Lisa Fasano

#### Program Purpose:

The Spare the Air program encourages the public to reduce their driving, a major source of Bay Area air pollution, and promotes the use of public transit, biking, walking, carpooling, trip reduction and other behavior changes that reduce pollution from automobiles through employers.

#### **Description of Program:**

Work with employers, resource teams and the public to reduce air pollution by making clean air choices including taking public transportation, ridesharing, trip linking and refueling motor vehicles in the evening; this program complements Program 305. Funds will be used for advertising, media relations, electronic notification systems, public opinion surveying, partnerships, staff time associated with the Spare the Air programs and grass roots education.

#### Justification of Change Request:

Funding for the air quality resource teams will now come from TFCA funds, where as previously these were funded via general revenues.

#### **Activities**

Conduct employer campaign to educate employees about individual choices to reduce air pollution.

Prepare and issue media releases, respond to media inquiries and plan employer workshops and events.

Conduct public opinion surveys to evaluate program and measure behavior change.

Conduct public opinion surveys to evaluate program and measure behavior change.

Manage and update the sparetheair.org website as well as social media sites such as Twitter and Facebook.

Provide public outreach at employer events throughout the Bay Area.

Notify the employers/employees of Spare the Air Alerts through AirAlerts, the media, sparetheair.org, baagmd.gov and social media sites.

Manage employer outreach & advertising campaign.

| Major Objectives   | Delivery<br>Date |
|--|------------------|
| Conduct regional Great Race campaign to reduce vehicle use during summer season. | 6/30/2012        |
| Manage Air Quality Resource teams.   | 6/30/2012        |
| Manage Spare the Air Employer Program.   | 6/30/2012        |

#### COMPLIANCE & ENFORCEMENT DIVISION

The Compliance & Enforcement Division ensures the Air District will realize the emission reductions achieved by the air quality regulations adopted by the Board of Directors, or by permit conditions issued by the Executive Officer/APCO. Compliance with District, State, and Federal regulations is achieved by a Compliance Assistance Program that assists industry in understanding requirements, a Compliance Assurance (inspection) Program and an Enforcement Program that provides an effective deterrence to non-compliance. The Division promotes compliance assistance and voluntary compliance that assists companies to ensure compliance with regulations. When non-compliance is discovered, enforcement is applied at a level appropriate to the nature and extent of the violation. The Division will continue to work closely with industry, community groups, and environmental groups to review and enhance air quality compliance and enforcement programs, to provide the highest level of service.

For FYE 2012, the Division will continue to implement the Air District's comprehensive strategy to reduce residential wood smoke including ensuring compliance with the regulation's fuel labeling requirement. The Division will complete final implementation of the Mobile Source Compliance Plan (MSCP), a new program for enforcement of CARB Diesel Particulate Matter (DPM) regulations from mobile sources. Mobile source enforcement reduces DPM health risks in Community Air Risk Evaluation (CARE) impacted areas, with a special focus on the Port of Oakland and West Oakland. Companies subject to new requirements to reduce air pollution from Small Boilers and Heaters will be provided additional compliance assistance to help plan for the new requirements. CARB Climate Change Early Action Measures have begun implementation with additional compliance assistance and inspections for 2011-12. The District will continue to minimize petroleum refinery flare use through the Flare Minimization Plans for all five Bay Area refineries. Other significant air programs requiring Division resources are: investigations of Title V deviation reporting, Portable Equipment (PERP) and Portable Engines, Asbestos projects (renovations, demolitions and naturally occurring asbestos – NOA), compliance determinations for State Air Toxics Control Measures (ATCMs) and Federal Maximum Available Control Technology (MACTs) for air toxics.

During the coming year, Division programs will continue to focus on activities that support the District's commitment to achieving clean air to protect public health and the environment. The Division will implement the following programs:

- The Compliance Assistance Program will continue to develop Compliance Advisories for use by the Inspection staff and by industry. These will include several related to new and amended regulations and state Air Toxics Control Measures for stationary sources and some mobile sources. The program encompasses inspector training, support for various Division programs, dispatch activities, Compliance Assistance Advisories, and Industry Compliance Schools. The small business incentive program will provide financial incentives for small businesses to attend District-run Industry Compliance Schools to learn practical information on how to comply with District regulations and how compliance benefits not only their business, but also their community.
- The Compliance Assurance Program will continue both announced and unannounced inspections of air pollution sources to ensure compliance. Targeted strategies will be used to focus inspections to find non-compliance and reduce excess emissions. Sources include: Title V and Synthetic Minors permits, petroleum refineries, chemical plants, dry cleaners, gasoline dispensing facilities, autobody shops, asbestos renovations and demolitions, agricultural and prescribed burning, and other permitted sources. Staff will continue to plan, prepare, and respond to air pollution incidents and to work closely with other response agencies.
- The Enforcement Program will continue with a focus on major facility (Title V, Synthetic Minor) auditing and will strive to ensure compliance with all air quality regulations. Staff will work with the Legal Division to provide a strong deterrent to non-compliance and to apply the appropriate level of enforcement, proportional to the level of non-compliance. The Division will vigorously pursue violators who show a disregard for the law and well being of the public. Air pollution complaints will be investigated to provide a high level of service to the public. Wood smoke patrols for excessive opacity and curtailment violations will be conducted for the fourth winter of the wood smoke regulation.

The Division's community outreach, throughout the programs above, will continue to provide compliance assistance materials in foreign languages and translation services for the air pollution complaint process, and other public service access points at the Air District.

| Program Purpose:   | 100000                   |     |

Enforce all applicable Federal, State, and District air pollution regulations and permit conditions.

#### Description of Program:

The Enforcement Program consists of activities designed to respond when sources are found in violation of applicable Federal, State and Air District regulations and permit conditions. A strong, technically-based enforcement program provides both an essential deterrent to continued or future non-compliance as well as consistency in enforcement practices throughout the regulated community. This program includes all Division activities necessary to address noncompliance, including issuing Notices of Violation (NOV) and Notices to Comply (NTC), identifying causes and solutions for non-compliance, developing enforcement cases for legal action, and providing testimony during hearings and court cases. Other elements of the program include responding to the public's air pollution complaints, returning sources to compliance, and supporting enforcement of the variance and abatement order process. In addition, the toxic air contaminant activities, such as mobile source enforcement of diesel particulate matter ATCMs and asbestos demolition/renovation enforcement, ensure compliance with Federal, State and District regulations to protect the public from exposure to known carcinogens. Oversight of the Division's Safety Program is coordinated with the training functions in Program 402.

#### Justification of Change Request:

No change.

#### **ACTIVITIES**

Receive and investigate citizen inquiries and air pollution complaints.

Investigate, issue and process NOVs. Work with Legal Services Division to develop cases, penalty settlement, and/or prosecution.

Prepare case summaries, conduct office conferences and recommend abatement action where continuing or recurrent violations are involved.

Provide consistent technical assessments for all enforcement matters pending before the Hearing Board.

Asbestos program: inquiries, air pollution complaints, notifications, enforcement and processing NOVs.

Issue NTCs and follow-up to ensure compliance.

Gasoline Dispensing Facilities (GDF) Program: diagnostic testing, air pollution complaints, enforcement and processing NOVs. Assist GDF operators with diagnostic testing, preventative maintenance and training.

Woodsmoke Program: enforcement, curtailment and opacity patrols based on received complaints, processing warning letters and NOVs.

CARB Mobile Source regulations enforcement in CARE impacted areas with special focus on West Oakland.

Dry Cleaning / Auto Body Program: air pollution complaints, enforcement and processing NOVs.

Participate in interagency environmental task force programs to coordinate District enforcement activities with other County/State governmental agencies.

Refinery Flares: review, comment, approve and enforce provisions in Regulation 12, Rules 11 and 12

| MAJOR OBJECTIVES  | Delivery<br>Date       |
|---|------------------------|
| Respond to public air pollution complaints as soon as possible where highest priority response is given to ongoing complaints alleged against potential nuisance sites.                                   | Daily                  |
| Respond to public air pollution complaints as soon as possible where highest priority response is given to ongoing complaints alleged against potential nuisance sites.                                   | Daily                  |
| Reinspect sources to verify compliance status after issuance of an NOV or an NTC.   | Daily                  |
| Conduct/coordinate investigations to support enforcement case development for legal actions.  | Daily                  |
| Ensure that increments of progress from office conferences, abatement orders, consent decrees, enforcement agreements, or settlement agreements are being met.  | Quarter/y/as<br>needed |
| Provide technical/engineering analysis and support for variances, abatement orders, and permit appeals to Hearing Board. Prepare weekly District position report on all matters before the Hearing Board. | Weekly                 |
| Update GDF program Policy & Procedure document to reflect changes in implementation of the California Air Resources Board Enhanced Vapor Recovery (CARB EVR) Program.                                     | Quarterly/as<br>needed |
| Mobile Source enforcement of diesel particulate Air Toxic Control Measures  | Daily or as needed     |
| Conduct asbestos program Demo/Reno outreach to city building departments, fire departments, and other stake holders as needed. Attend environmental task force meetings.                                  | Quarterly              |
| Provide staff at community meetings to present information on the complaint process, enforcement activities, etc. (Community Outreach Plan).  | Quarterly/as scheduled |

|  |       | FYE 2010                           | FYE 2011                     | FYE 2012                      |                      |                   |

# COMPLIANCE ASSISTANCE & OPERATIONS Managing Division: Compliance & Enforcement Contact Person: Barbara Coler Program Purpose:

Promote compliance with District regulations through program development and industry/source education.

#### Description of Program:

The Compliance Assistance and Operations Program provides both industry and Division staff with the necessary tools to promote compliance with air quality requirements. The Program also provides educational materials and conducts outreach to the public to promote compliance with the woodsmoke reduction program. In support of the woodsmoke reduction program, the Program maintains both an online and phone Woodsmoke Complaint System for the public to register compliants. The Program also manages a dispatch system for all general complaints from the public. Policies and procedures promote voluntary compliance for industry and improve consistency of compliance inspections for nspection staff. Industry Compliance Schools (ICS), including a Small Business ICS incentive program, are offered for businesses. Compliance Advisories, fact sheets and other educational materials are provided to industry and trade associations. Regulatory questions are answered via a dedicated compliance assistance telephone line. In-service training ensures consistent and appropriate inspection activities. Mobile source compliance activities are conducted ipursuant to the Air District's Mobile Source Compliance Plan which includes a Memorandum of Understanding (MOU) with the California Air Resources Board (CARB). Partnerships with other public agencies promote multi-media pollution prevention through local Green Business programs and other activities. Support is provided for all Division air programs and external public and industry needs.

#### Justification of Change Request:

No change.

#### **ACTIVITIES**

Compliance Assistance (Industry Assistance): provide small and medium-sized businesses with specialized educational and technical assistance to achieve and maintain compliance. Provide compliance assistance during routine inspections and following enforcement action. Compliance assistance is also provided for all air quality complaints for the general public through dispatch or other 1-800 or 1-877 phone line systems. Outreach is conducted for compliance assistance for several programs, including direct mail to residents in high priority/high complaint areas for the woodsmoke reduction program.

Compliance Assistance: develop and maintain Division Policies and Procedures and other documents/processes to ensure consistent application of enforcement activities. Conduct Industry Compliance Schools (ICS) for Small Businesses (using the SB Incentive ICS program) and other regulated industries. Build partnerships with other public and community organizations to strengthen compliance assistance activities. Conduct compliance assistance and enforcement activities for the woodsmoke reduction and mobile source enforcement programs. Promote pollution prevention through multi-media collaboration and coordination with local Green Business Programs.

Training & Safety: provide staff with pertinent classes, educational materials and a robust safety curriculum to support core activities.

Operations: develop and maintain air programs to support District and CARB rule requirements, including woodsmoke, flare monitoring, asbestos demolition/renovation, naturally occurring asbestos, open burning, reportable compliance activities, soil aeration and mobile source(s) compliance. Provide multilingual services to access all Division programs.

| MAJOR OBJECTIVES   | Delivery<br>Date  |
|--|-------------------|
| Conduct Small Business Incentive and other Industry Compliance Schools.  | 6/30/2012         |
| Develop Compliance Assistance materials for specific business sectors and the public (woodsmoke).  | Quarterly         |
| Identify and translate Compliance Assistance materials for small business and other industry sectors where non-English speaking operators need additional assistance.  | Quarterly         |
| Maintain compliance assistance hotline during core business hours and provide staff for speakers bureau.   | Weekly            |
| Develop and maintain a multi-division rule development/air program implementation process; identify and ensure compliance advisories and related materials are developed proactively, timely and are written in user-friendly format/language. Where needed, identify for creation and/or revision AOPs or Policies & Procedures documents to ensure consistent rules/regs implementation. | Weekly            |
| Coordinate compliance reviews in partnership with County Green Business Coordinators.  | Yearly-           |
| Maintain ongoing Safety Training and implement new OSHA requirements as needed.  | Yearly            |
| Coordinate Training Program for inspectors.  | Yearly -<br>round |
| Provide equipment & capital management for communication, computers and related devices.   | Yearly            |
| Review, analyze and process petitions, plans, complaints, Reportable Compliance Activities (RCAs - e.g., breakdowns, GLM releases, inoperational monitors, pressure relief valve releases) and other notifications received.   | Yearly            |
| Conduct mass-mailouts of woodsmoke reduction program brochures and educational materials in sensitive wood smoke areas.  | Oct/Nov-<br>Feb   |
| Prepare woodsmoke reduction program status reports during the Winter Spare the Air Season.   | Biweekly          |

#### **Program Purpose:**

Conduct compliance inspections and to ensure compliance with Air Quality regulations to achieve emission reductions.

#### **Description of Program:**

The Inspection Program's goal is to ensure that facilities operate and maintain their equipment and processes in compliance with all applicable Federal, State and District Regulations and Permit conditions through continuing on-site visits by Inspection staff. Facilities inspected range from refineries, chemical plants, and high-technology industries, including small businesses such as gas stations, auto body shops, and dry cleaners. Additionally, strict enforcement of Toxic and Hazardous Material Regulations such as asbestos and diesel particulate rules has greatly minimized the public's risk and exposure to carcinogens. This program includes rapid response to incidents involving accidental emission of air pollutants, investigation to determine cause, and recommendations necessary to prevent reoccurrence. Incidents range from community odor episodes to releases of potentially hazardous pollutants from publicly-owned and private industrial sources. The program includes coordination with other agency responders, which work to ensure that response is complete, and that the public is protected to the greatest extent possible.

#### **Justification of Change Request:**

Increased the 52200 travel expenses by \$2,700 (moved from 52905, printing & reproduction) due to the increased cost of bridge tolls.

#### **Activities**

Refinery Inspection Program for Regulatory and Title 5 Permit Compliance.

Title V Inspections Program / EPA Grant / Aerometric Information Retrieval System (AIRS) and audits consistent with the Community Outreach Plan.

Synthetic Minor Inspection Program.

General Inspections Program.

Air Toxics (asbestos & diesel PM) Inspections Program.

Dry Cleaner / Auto Body Programs.

State Portable Equipment Inspection Program.

Gasoline Dispensing Facilities (GDFs) Inspections Program.

Inspection Communications / Computer Programs.

Title 17 Prescribed burns / Regulation 5 inspections.

Perform analysis as required to track and analyze existing process safety management (PSM) programs, Federal and State risk management programs (RMP/RMPP); work with other agencies to improve programs.

Participate in interagency activities, such as County environmental task forces, incident response teams, and other activities relating to prevention, preparedness and response.

Initiate response to major air pollution incidents as soon as possible, and within minutes of notification, provide technical assistance and support to first response agencies during and after incidents; prepare incident reports.

#### **ENGINEERING DIVISION**

Engineering Division staff will continue to give high priority to the timely review of permit applications in FYE 2012. The number of permit applications submitted is expected to increase somewhat from 2011 levels (which were below normal activity levels due to the economic downturn).

Engine permitting will continue to require significant resources in the Engineering Division, as application submittals for new backup generators are expected to continue at current levels (i.e., approximately 25 applications per month). Applications for engine replacements resulting from the requirements of the State ATCM for portable diesel engines will continue into FYE 2012.

The Division will be developing permit rule amendments in FYE 2012 to address emissions of  $PM_{2.5}$  and GHG from new/modified sources. These amendments are the result of EPA requirements and Stationary Source Control Measures 15 and 16 in the District's 2010 Clean Air Plan. After July 1, 2012, under EPA's Tailoring Rule PSD permits will be required for projects at major stationary sources of GHG emissions (facility-wide potential to emit of 100,000 tons per year or more of CO2e) that would increase GHG emissions by 75,000 tons per year CO2e.

The Division will be heavily involved in transitioning to the Production System in FYE 2012. The Production System will provide online tools to District staff and permitted facilities that will significantly increase efficiencies. In the near term, however, the new System will require expanded outreach, training, and data validation. A "help desk" will be put in place to assist permitted facilities with the transition to the new online system. The Division will also begin work in FYE 2012 on the design and testing of Phase 2 of the Production System after the initial "go live" date.

Work in the Title V Program will focus on Title V permit renewals and revisions. Title V permits must be renewed every five years, and must be revised on an ongoing basis to reflect regulatory changes, changes that occur at the facilities, and to correct any errors that may be identified. Some new Title V and Synthetic Minor Operating Permits will also be required in FYE 2012 based on GHG emissions under EPA's Tailoring Rule. The Engineering Division will also continue to pursue measures to streamline and improve the District's Title V Program, including providing Title V permit functionality in Phase 2 of the Production System.

The Engineering Division will see an increased workload in FYE 2012 in implementing new registration requirements for several source categories including under-fired commercial charbroilers, non-halogenated solvent dry cleaners, small boilers, and small printing operations. Equipment registrations are to be integrated into the new Production System and handled online to the maximum extent possible.

The Toxic Evaluation Section will continue to review permit applications for new and modified sources of Toxic Air Contaminants (TACs). The Section will also continue point source (i.e., Gaussian) modeling responsibilities including modeling for AB-2588 health risk assessments, Prevention of Significant Deterioration (PSD) analyses, and other "special projects" (e.g., modeling associated with public nuisance releases, requests for variances, California Environmental Quality Act (CEQA) related air quality impact analyses, and rule development). The number and complexity of modeling analyses completed for CEQA purposes has increased recently due to the District's adoption of updated CEQA guidelines. The Section will continue to implement the State Air Toxics "Hot Spots" Program, which applies to existing facilities that emit TACs.

The Engineering Projects Section will work primarily to ensure that the Division's policies and procedures are continually reviewed, updated and improved. This includes the Permit Handbook, the BACT/TBACT Workbook, and standard permit conditions. Additional responsibilities include auditing and improving the District's stationary source inventory, engineering support to other divisions, and staff training.

| PERMIT EVALUATION   |          |  |  |  |

|   |          |  |  |  |
| Description of Program:   |          |  |  |  |
| This program involves activities related to the evaluation of permit applications submitted to the Air District (other than Title V permit applications, which are covered under Program 506). This includes applications for: (1) new/modified sources subject to District New Source Review requirements, (2) emissions banking, (3) IERCs, (4) PSD & Acid Rain permits, and (5) all other sources & abatement devices subject to District permit requirements, or that may be determined to be exempt from these requirements. Program staff complete detailed permit evaluations for compliance with regulatory requirements, including case-by-case BACT & offset determinations. The program includes CEQA review & Climate Protection activities related to permitted sources. |          |  |  |  |

| Scott Lutz   |               |
| Program Purpose:   |               |
| To develop and implement an effective air toxics control strategy that integrates Federal, State requirements. | , and local   |
| · · · · · · · · · · · · · · · · · · ·  |               |
| Description of Program:  | · · ·         |
| The Air Toxics Program involves the integration of Federal and State air toxics mandates with                  | local goals   |
| that have been established by the District's Board of Directors. The program includes: (1) air t               |               |
| source review, (2) air toxics control measures for categories of sources, (3) school notification              |               |
| and (4) the Air Toxics "Hot Spots" Program, which includes maintaining an air toxics emissions                 | inventory.    |
|  |               |
|  |               |
| Justification of Change Request:   |               |
| Costs for the "Waters Bill" School Notification Program (i.e., postage, printing & reproduction)               |               |
| projected to be slightly higher than the last FY. However, the program is funded on a direct co                | st recovery   |
| basis from permit applicants.  |               |
|  |               |
|  |               |
| ACTIVITIES   |               |
| Perform routine health risk screening for new/modified permit applications, and more detailed                  | neaith risk   |
| assessments where needed (350 estimated).  |               |
| Review formal health risk assessments and PSD modeling analyses for major new/modified pe                      | ermit         |
| applications (12 estimated). Continue transition to AERMOD model.  | 000 5         |
| Administer the "Waters Bill" School Notification Program for new toxic sources located within 1 a school site. | 000 feet of   |
| Maintain air toxics emissions inventory.   |               |
| Complete annual AB-2588 prioritization, and review any new health risk assessments that may                    | / be          |
| required. Coordinate public notification and risk reduction audits.  |               |
| Coordinate phase-out of Perc dry cleaners with Compliance and Enforcement Division and Le                      | gal Division. |
| Prepare and submit AB-2588 data to CARB in required format.  |               |
| Coordinate with planning staff regarding data needs for updated CEQA Guidelines and Thresh Significance.       | iolas ot      |
| Review toxic emissions data for diesel engines and assess risk under the Air Toxics Hot Spots                  | Program.      |
| Coordinate with ARB, EPA & District staff to implement and enforce ATCMs & NESHAPs in or                       |               |
| minimize impacts of toxic sources. Coordinate with OEHHA on revision of health risk assessm                    | nent          |
| guidance.  | <del></del>   |
| Respond to information requests & provide speaking services for the air toxics program.                        |               |
|  |               |

| TITLE V  | 506  |
|--|--|
|  |  |
| Managing Division:   |  |
| Engineering  |  |
| Contact Person:  |  |
| Barry G. Young   |  |
| Program Purpose:   |  |
| Implementation of Federal Operating Permit Program for Major Facilities (CAA Title V).   |  |
|  |  |
|  |  |
| Description of Program:  | -  |
| The Title V program involves activities related to Title V of the Federal Clean Air Act (CAA), which                               | requires                                     |
| the Air District to issue Federally enforceable permits to major and other designated facilities. Th                               |  |
| program is intended to enhance compliance with the CAA via permits that explicitly include all Fe                                  |  |
| State, and District requirements applicable to sources of air pollution at subject facilities.                                     |  |
|  |  |
|  |  |
|  |  |
| Justification of Change Request:   |  |
| Additional resources may be needed in the future to address recommendations of EPA's BAAQM   | ID Title V                                   |
| program evaluation, and potential EPA requirements for Title V permits based on GHG emissions                                      |  |
|  |  |
|  |  |
|  |  |
| ACTIVITIES   |  |
| Complete review of applications for Title V permit renewals  |  |
| Complete review of applications for Title V permit renewals.  Conduct Title V outreach activities, and public hearings, as needed. |  |
| Complete Title V compliance reviews.   |  |
| Complete rule development for Regulation 2, Rule 6, if amendments are needed.  |  |
| Provide Title V training to District staff.  |  |
| Track progress of EPA rulemaking related to Title V, Section 112, compliance monitoring and aci                                    | d rain.                                      |
| and provide District comments as needed.   |  |
| Conduct Title V implementation meetings and workshops with industry and the public, respond to                                     | )  |
| information requests, and provide speaking services as needed.   |  |
| Participate in CAPCOA and NACAA Title V activities.  |  |
| Develop and revise emission factors for sources subject to Regulation 2, Rule 6.   |  |
| Complete review of applications for Title V revisions and reopenings.  |  |
| Complete billing for Title V permit application fees and suggest changes to Fee Schedule as need                                   | uea.   |
|  |  |

| Program Purpose:  |                                |
| Develop the infrastructure for consistent and efficient permit evaluation and processing, and coprojects intended to develop and improve programs within the Engineering Division.  | omplete                        |
| Description of Program:   |                                |
| The Engineering Special Projects Program involves activities that are intended to ensure consi efficient, and high-quality, permit evaluation and processing. This includes the development of procedures, and training and tools within the Engineering Division. A large portion of the Secti resources are dedicated to completion of the Production System and modifying Regulation 2, Figure 3. Goals of the program include the reduction of time and effort needed to evaluate and issue per applications, and the improvement of the quality of permit services provided. | f policies,<br>on's<br>Rule 2. |

# PLANNING, RULES AND RESEARCH DIVISION

The Planning, Rules and Research Division prepares comprehensive source emission inventories for the Bay Area, conducts air quality modeling and data analyses, prepares plans to meet State and Federal air quality standards, and develops amendments to District rules and regulations. Planning Division staff implements climate protection activities. Division staff analyzes emissions of toxic air contaminants and develops and implements programs to reduce exposure. Division staff works with cities, counties and other agencies to encourage transportation and land use decisions that improve air quality. Division staff prepares, reviews and provides guidance on environmental documents prepared pursuant to California Environmental Quality Act (CEQA).

In FYE 2012, Division staff will implement the multi-pollutant Bay Area 2010 Clean Air Plan, which addresses a range of pollutants including ozone, particulate matter, toxic air contaminants and greenhouse gases. Staff will work with local lead agencies, regional agencies, and others to implement the CEQA Guidelines. Staff will provide technical assistance to cities and counties on climate protection, local plans, and environmental review processes. Staff will propose an indirect source review rule to minimize impacts of land use decisions on air quality and GHGs. Staff will lay the groundwork for meeting air quality planning requirements of new national PM and ozone standards and prepare a PM2.5 SIP submittal to fulfill federal requirements. Staff will continue to work with Cal-EPA, CARB, and Federal, State, regional and local agencies to reduce emissions associated with ports and goods movement and implement other mobile source programs.

In FYE 2012, Division staff will propose regulatory amendments based on control measures in the 2010 Clean Air Plan, evaluate further study measures and, as appropriate, develop regulatory amendments based on these evaluations. These measures will affect stationary and area sources of NOx, VOC, PM and other pollutants. Sources include combustion equipment in the cement manufacturing industry, the metal melting and forging industry, vacuum trucks, various sources of PM and other industries. Staff will work with CARB staff regarding development of AB32 regulations. Other rule development projects may include assisting regulatory projects for other sections and divisions, conducting ongoing review of rules in other districts, and incorporating climate change considerations into District rules.

The District will continue to work with CARB, US EPA, Northern California air districts, and other stakeholders on the Central California Air Quality Studies, focused mainly on ozone and PM. These studies involve field measurements, emissions inventory development, modeling, and analysis of air quality and pollutant transport in North Central California. In FYE 2012 staff will further improve PM emissions estimates and continue conducting data analysis and modeling to better understand PM formation in the Bay Area and transport of PM between neighboring regions. Data analysis, modeling and use of a geographic information system support the District's CARE program, rule development, permitting, and planning activities including the preparation of the State Implementation Plan for PM.

In FYE 2012, Division staff will continue to implement climate protection activities and integrate climate protection into District programs. Staff will assist local government with the development of climate action plans and the implementation of AB32 and SB375, collaborate with regional agency partners on development of the Sustainable Communities Strategy for the Bay Area, work with partner agencies to implement regional GHG reduction strategies through the JPC, maintain web portals for Bay Area Climate Protection Resources and GHG emission inventory data, monitor implementation of projects funded through the Climate Protection Grant Program, maintain the Bay Area GHG emission inventory, and implement measures to reduce the District's carbon footprint.

In FYE 2012, Division staff will continue work with other divisions on the technical analysis, outreach, and risk reduction components of the CARE Program. Technical work will include sub-regional modeling of air toxics in impacted communities, local air quality measurement studies, and analysis of air toxic data. Staff will continue to work with local jurisdictions to develop Community Risk Reduction Plans in impacted communities. Staff will continue to implement risk reduction programs, including identifying and prioritizing impacted communities, focusing grant and incentive funds, conducting community outreach, and providing guidance on local land use and exposure to air pollution. Staff will continue to work with State agencies, cities, counties, local stakeholders and others to develop and implement local emission reduction strategies.

# SOURCE INVENTORIES Managing Division: Planning, Rules & Research Contact Person: Amir Fanai

# **Program Purpose:**

Compile source inventories for criteria pollutants and greenhouse gases (GHGs) for planning, rule development, CARE program and public information.

# Description of Program:

Staff assigned to this program compile lists of all significant sources of air pollution (criteria pollutants and greenhouse gases) in the Bay Area, and estimate the quantity and timing of emissions from each source or category of sources. The inventory includes emissions from industrial sources, motor vehicles, commercial activities, agricultural activities, residential and consumer products, and natural sources. Source inventories are used as a starting point for preparing attainment plans and for developing rules to control emissions. Inventory calculations are also used to track progress in implementing plans and demonstrating attainment. The Emission Inventories are requiredby CARB and EPA. Staff also prepares and maintains a Greenhouse Gas (GHG) emission inventory for the region and the District operations, and assists with the development of the air toxics emission inventory for the Community Air Risk Evaluation (CARE) program.

# Justification of Change Request:

The budget has been reduced from FYE 2011 in accordance with District-wide reduction directive of a minimum of 15% of Service and Supply expenditures.

## **ACTIVITIES**

Prepare point sources data for CARB. Data includes criteria, GHG and toxic emissions data.

Maintain and update point source GHG inventory as new data becomes available.

Maintain and update area and mobile sources GHG Inventory for the Bay Area. Attend meetings and participate in discussions on implementation of California Global Warming Solutions Act of 2006 (AB-32).

Publish the 2008 Emission Inventory Summary Report. Update methodology document to reflect 2008 base year criteria pollutant.

Estimate 2010 GHG emissions from District operations and submit to The Climate Registry.

Participate in the planning of the section's computer requirements in the new data base system.

Incorporate latest vehicle activity data from MTC and Central California Ozone Study (CCOS) consultants and latest emission factors from CARB to update emissions for motor vehicle categories. Prepare reports indicating the changes.

Continue to work to prepare 2011 criteria pollutant emission inventory (completing in 2013).

Provide inventory information to District staff for other District programs: Strategic Incentives Division, Rule Development, Communications and Outreach and CARE programs.

Provide emission inventory information requested by public and consultants.

| MAJOR OBJECTIVES  | Delivery<br>Date |
|---|------------------|
| Transmit detailed point and area source data to CARB's CEIDARS data base.                       | 12/1/2011        |
| Submit GHG emissions for sources at the District to The Climate Registry.                       | 8/30/2011        |
| Publish 2008 Base Year Emission Inventory Methodology Document for criteria pollutants and GHGs | 3/30/2011        |

# AIR QUALITY PLANS 602 Managing Division: Planning, Rules & Research **Contact Person:** Dave Vintze Program Purpose: Prepare and track effectiveness of plans and implementation schedules to attain and maintain State and National ambient air quality standards. **Description of Program:** This program involves the preparation of plans for State and National air quality standards. This includes the preparation of State Triennial Updates (Clean Air Plan), and any SIP related submittals to EPA for national planning requirements. Preparation of these documents involves cooperation of various Air District staff and cooperation with ABAG, MTC, CARB and EPA. A PM 2.5 SIP or Maintenance Plan will be developed during the FYE2012 budget year. Workshops, hearings and other forums for community outreach and public review are part of the plan development process. Preparing CEQA documents for air quality plans as necessary, tracking the effectiveness of air quality plans, ensuring compliance with State and national air quality planning requirements, and reporting to CARB and EPA are included in the program. This program also includes tracking and commenting on proposed State and National air quality. standards and planning requirements. Justification of Change Request: The budget has been reduced from FYE 2011 in accordance with Air District-wide reduction directive of a minimum of 15% of Service and supply expenditures ACTIVITIES Prepare for submittal to CARB and EPA a PM2.5 SIP Prepare Annual Progress Report to CARB regarding implementation of the 2005 Bay Area Ozone Strategy

Track development of new or amended State and Federal ambient air quality standards.

Prepare any documents or technical analysis needed to meet new State or Federal planning requirements for ozone and PM2.5.

Implement control measures in the 2010 CAP

Update District website with current air quality planning requirements or information.

| MAJOR OBJECTIVES  | Delivery<br>Date |
|---|------------------|
| Prepare public draft PM 2.5 SIP   | 3/1/2012         |
| Prepare studies regarding induced demand and congestion pricing per the 2010 CAP                        | 6/30/2012        |
| Submit other planning documents to CARB and EPA as required in FYE 2012 timeframe.                      | 6/30/2012        |
| Submit annual progress report regarding implementation of the 2005 Ozone Strategy and 2010 CAP to CARB. | 1/31/2012        |
|   |                  |

# AIR QUALITY MODELING SUPPORT

603

Managing Division:

Planning, Rules & Research

Contact Person:

Saffet Tanrikulu

# Program Purpose:

Provide technical support to the District's initiatives and collaborative activities through air quality analyses.

# **Description of Program:**

This program provides technical support to various District activities, including: the Central California Ozone Study (CCOS), the California Regional Particulate Air Quality Study (CRPAQS), the California Agricultural Research Program (CARP), the CARE Program, the Carl Moyer Program, the Climate Protection Program, the Air Quality Planning Program, and the ambient data Quality Assurance (QA)/Quality Control (QC) Program. The program is also responsible for archiving the District's aerometric data, operation and maintenance of the District's Wind Profiler and RASS temperature observation system in Livermore, managing the District's modeling- and data-analysis-related contracts, participating in the District's rule development and permit modeling activities, responding to requests from District staff and the public for ambient data, and reviewing and updating the District's air monitoring needs.

# Justification of Change Request:

The budget has been reduced from FYE 2011 in accordance with District-wide reduction directive of a minimum of 15% of Service and Supply expenditures.

#### **ACTIVITIES**

Participate in the Technical and Policy Committee activities of the CCOS, CRPAQS and CARP, and provide in-kind support to their modeling and data analysis efforts.

Provide technical and modeling support to the CARE program, including data analysis, emissions inventory evaluation, GIS mapping, field campaign, Task Force meetings, and regional and local toxics modeling.

Support District's Air Quality Planning Program.

Support the Climate Protection Program; conduct data analysis and modeling.

Support the Carl Moyer Program; create and update maps to rank grant projects.

Operate and maintain the District's Wind Profiler and RASS temperature measurement system.

Perform QA/QC on the District's routinely collected aerometric data, archive the data and respond to internal/external data requests.

Manage the District's data analysis and modeling-related contracts; prepare workstatements, review and evaluate contractors' progress and invoices.

Perform air quality modeling to support District's rule making activities.

Prepare meteorological inputs to AERMOD for permit modeling and apply AERMOD to accommodate the District's non-PSD modeling needs.

Review and update the District's aerometric data needs.

Maintain a real-time meteorological and air quality data web site.

| MAJOR OBJECTIVES  | Delivery<br>Date |
|---|------------------|
| Evaluate future year emissions estimate for the CARE program.                                   | 12/31/2011       |
| Conduct regional and local toxics modeling with the future year inventories.                    | 6/30/2012        |
| Evaluate and update health impacts of PM, ozone and toxics.                                     | 6/30/2012        |
| Simulate ultrafine particulate matter concentrations.   | 6/30/2012        |
| Complete documentation for PM and toxics modeling and data analysis.                            | 12/31/2011       |
| Perform carbon-14 analysis to assess contribution of wood burning to PM.                        | 6/30/2012        |
| Update cluster and Chemical Mass Balance analyses to estimate the benefit of wood burning rule. | 6/30/2012        |
| Verify the District's aerometric data from 2011 and 2012.                                       | 6/30/2012        |
| Prepare meteorological input database for AERMOD applications.                                  | 6/30/2012        |
| Complete analysis of ammonia controls Lehigh Southwest Cement Plant.                            | 12/31/2011       |
|   |                  |

#### AIR QUALITY MODELING & RESEARCH

604

Managing Division:

Planning, Rules & Research

Contact Person:

Saffet Tanrikulu

# Program Purpose:

Provide air quality modeling and data analysis for development of strategies to attain and maintain air quality standards.

# **Description of Program:**

This program maintains and updates state-of-the-science meteorological, emissions inventory and air quality models to investigate the formation of ozone, particulate matter (PM), and air toxics in the Bay Area, assess attainment status with respect to ozone and PM, support Federal and State air quality plan development activities, and quantify transport of ozone, PM and air toxics, and their precursors within the Bay Area as well as between the Bay Area and neighboring districts. This program also includes analysis of ambient data, preparation of model inputs, maintenance of the District's cluster computer system, development of graphics and statistical programs to evaluate model inputs and outputs, and collaboration with modeling and air quality planning staff of CARB, U.S. EPA, neighboring districts, industry and other stakeholders.

# **Justification of Change Request:**

The budget has been reduced from FYE 2011 in accordance with District-wide reduction directive of a minimum of 15% of Service and Supply expenditures.

## **ACTIVITIES**

Maintain and apply air quality models to investigate ozone, PM, and toxics air contaminant formation in the Bay Area as well as their regional transport.

Maintain and apply meteorological models to prepare inputs to air quality models.

Maintain and apply emissions models to prepare inputs to air quality models.

Prepare ambient data for model inputs and evaluation of model outputs.

Conduct ambient data analysis for ozone, PM and toxics air contaminant to characterize ozone, PM and air toxics formation in the Bay Area.

Evaluate and improve model performance for multipollutant applications.

Maintain the District's cluster computer system on which models are run.

Develop graphics, analysis and model evaluation tools.

Develop in-house staff expertise in modeling and air quality analysis.

# MOBILE SOURCE MEASURES Managing Division: Planning, Rules & Research Contact Person: Dave Vintze

# **Program Purpose:**

Implementation of regional land use, mobile source and transportation measures.

# **Description of Program:**

State and Federal laws require air districts to implement mobile source and transportation measures to attain and maintain ambient air quality standards. To this end, District staff works with CARB, MTC, ABAG, CMAs, cities, counties, transit operators, Caltrans, and other agencies and organizations to encourage and facilitate implementation of mobile source and transportation measures. In addition, this program includes consultation with other agencies regarding transportation planning, analysis of air quality impacts of plans and projects through CEQA and other environmental review processes, transportation/general conformity determinations, local air quality issues, and coordination of transportation, land use and air quality planning. Staff also works with State and local agencies to reduce emissions from ports and goods movement, and participates in CARB rulemaking processes.

# **Justification of Change Request:**

The budget has been reduced from FYE 2011 in accordance with District-wide reduction directive of a minimum of 15% of Service and Supply expenditures.

#### **ACTIVITIES**

Implement and track the recently adopted District CEQA Guidelines. Continue to provide guidance on evaluation and mitigation of community exposure to particulate matter and air toxics and greenhouse gas impacts.

Develop an indirect source review rule.

Participate in Statewide effort to update the Urbemis or other land use emission model.

Respond to questions from cities, counties and other agencies regarding air quality analysis procedures for CEQA documents; review and send comment letters on selected environmental documents for major development projects and plans.

Evaluate and implement transportation & mobile source control measures & further study measures from 2010 CAP.

Assist with District activities to implement programs to reduce emissions of fine PM.

Work with MTC and others on implementation of transportation control measures in the 2010 CAP, as appropriate.

Work with EPA, CARB, and various Federal, State, regional and local agencies on mobile source programs, e.g., ports, goods movement, railroads.

Participate on regional and statewide Transportation Conformity Task Forces.

Track CARB actions on on-road and off-road mobile sources and fuels, and BAR actions on vehicle inspection and maintenance; attend workshops and hearings and prepare comments as appropriate.

Evaluate and promote use of alternative fuels, e.g., hydrogen, biodiesel, etc.

Collaborate with other regional agencies to implement SB375, TOD and smart growth in the Bay Area.

Assist in the development of climate action plans and community risk reduction plans.

Provide consultation to Federal agencies regarding general conformity review of non-transportation projects.

| Maintain & update webpages re: CEQA guidelines, smart growth, etc.  |                  |
|---|------------------|
| MAJOR OBJECTIVES  | Delivery<br>Date |
| Develop a public draft indirect Source Review Rule concept paper and update the board on progress   | 8/31/2011        |
| Continue to develop tools to assist local jurisdictions in their use of the CEQA Guidelines.  Assist in the development of climate action plans and community risk reduction plans. | 6/30/2012        |
| Prepare comment letters regarding air quality impacts of Bay Area development projects and plans for 60 CEQA documents.   | 6/30/2012        |
| Implement land use, mobile source, energy and climate, and transportation control measures from the 2010 CAP.   | 6/30/2012        |
| Participate in regional TOD, smart growth, SCS, and PDA programs.   | 6/30/2012        |
| Participate in Port of Oakland Maritime Air Quality Improvement Plan process and implementation processes.  | 6/30/2012        |

#### CLIMATE PROTECTION

608

Managing Division:

Planning, Rules & Research

Contact Person:

Dave Vintze

# **Program Purpose:**

Reduce emissions contributing to climate change and integrate climate protection into programs to reduce criteria and toxic air pollutants.

# **Description of Program:**

Air District climate protection activities for FYE 2012 will include: continued collaboration with local, regional, State, National and international agencies and organizations on climate protection efforts; continued integration of climate protection strategies in existing District programs; the development of emission inventory data and best practices web portals; continued technical assistance to cities and counties on municipal and community wide emission inventory development, climate action plan development and implementation; tracking and implementation of 52 climate protection grants; development of an indirect source rule with greenhouse gas co-benefits; collaborate and provide guidance on CEQA and greenhouse gas (GHG) evaluation methodology; AB32 and SB375 implementation and continued development of emission reduction recommendations for District operations.

# **Justification of Change Request:**

The budget has been reduced from FYE 2011 in accordance with District-Wide reduction directive of a minimum of 15% of Services and Supply expenditures.

#### **ACTIVITIES**

Continue to provide assistance to local government on developing emission inventories and climate action plans.

Develop ISR and implement 2010 CAP control measures identified for direct/indirect GHG emission reductions.

Participate in a regional climate protection program with JPC.

Update the Bay Area climate protection resource web portal for local governments.

Disseminate energy efficiency strategies and best practices for local governments and business. Coordinate funding from local foundations related to GHG reductions.

Track local, regional, State, and National agencies and organizations on their climate protection efforts.

Coordinate the integration of climate protection strategies in existing District programs.

Publicize and distribute Emission Inventory of Bay Area greenhouse gas emissions.

Participate in Statewide and regional AB32 and SB375 implementation efforts.

Coordinate funding from local foundations related to GHG reductions.

Implement and track the climate protection grants awarded in 2007.

| MAJOR OBJECTIVES  | Delivery<br>Date |
|---|------------------|
| Develop public draft concept paper for the ISR that includes GHG co-benefits.               | 8/31/2011        |
| Provide assistance to local governments on AB32 and SB375 implementation.                   | 6/30/2012        |
| Develop GHG emission inventory data web portal for local governments.                       | 12/31/2011       |
| Implement 2010 CAP control measures identified for GHG emission reductions.                 | 6/30/2012        |
| Provide status report on 2007 climate protection grant implementation.                      | 2/28/2012        |
| Assist local governments in developing climate action plans to meet the District's new CEQA | 6/30/2012        |
| Guidelines.   |                  |
|   |                  |

# COMMUNITY AIR RISK EVALUATION (CARE)

609

Managing Division:

Planning, Rules & Research

**Contact Person:** 

Phil Martien

# Program Purpose:

Evaluate community cancer and non-cancer health risk from ambient toxic air contaminants (TAC). Focus health risk mitigation measures on locations with higher risk levels and vulnerable populations.

# **Description of Program:**

The Air District's CARE Program targets risk reduction activities in areas where impacts of TACs are greatest. The CARE program has developed and manages a gridded TAC emission inventory incorporating point, area and mobile sources that is used to estimate exposure to TACs via modeling. Air monitoring, risk data and risk assessments are used to supplement the exposure estimates. Regional demographic data has been developed to help identify areas with sensitive populations. The CARE program develops inputs for and conducts dispersion-based modeling of health risk assessments. Information derived from these activities is used to focus District risk reduction activities such as grant and incentive programs, partnerships with local agencies on local plans and programs, collaboration with and public health professionals, advocacy of State and local regulatory programs, and public involvement processes to improve public health in the most impacted communities.

# **Justification of Change Request:**

The budget has been reduced from FYE 2011 in accordance with District-wide reduction directive of a minimum of 15% of Service and Supply expenditures.

#### **ACTIVITIES**

Manage and coordinate the CARE program, including CARE Task Force.

Develop community-scale toxic air contaminant (TAC) emissions for Community Risk Reduction Plans (CRRPs).

Work with local jurisdictions in developing CRRPs for TACs and PM2.5.

Conduct local modeling to support CEQA risk screening tools and CRRPs.

Participate in outreach and assist in evaluating community risks and hazards in accordance with proposed CEQA guidance.

Participate in outreach and assist in evaluating community risks and hazards in accordance with proposed CEQA guidance.

Participate in outreach and assist in evaluating community risks and hazards in accordance with proposed CEQA guidance.

Participate in outreach and assist in evaluating community risks and hazards in accordance with proposed CEQA guidance.

Provide technical reports and updates on the CARE program via the District web page.

Continue to compile demographic and health statistics data for the Bay Area.

Attend community meetings to understand local concerns and provide updates on the CARE program.

| MAJOR OBJECTIVES  | Delivery<br>Date |
|---|------------------|
| Provide updates to CEQA screening tools and analyses to support the District's local toxics and PM2.5 thresholds. | 9/30/2011        |
| Collaborate with local jurisdictions to develop draft CRRPs for cities in CARE impacted areas.                    | 9/1/2012         |
|   |                  |

# RULE DEVELOPMENT 611 Planning, Rules & Research

Contact Person:

Managing Division:

Daniel Belik

# Program Purpose:

The development of control measures and regulations to reduce air pollutant emissions in the Bay Area.

### **Description of Program:**

The Rule Development Program is responsible for the development of regulations to implement Air District plans to attain Federal and State air quality standards, and to protect public health. The 2010 Clean Air Plan and other planning documents adopted by the Board of Directors address State requirements in the California Clean Air Act, State transport mitigation regulations and other state air quality requirements, and may address Federal requirements based on new National ambient air quality standards for particulate matter and ozone. The 2010 Clean Air Plan addresses multiple pollutants, incorporating risk reduction to impacted populations, and reduces emissions of greenhouse gases. In addition to development of rules derived from planning documents, staff assists with the preparation of air quality plans. Other measures are developed under the direction of the Board of Directors to further protect public health and safety and, where possible, reduce emissions of greenhouse gases. In addition, staff reviews existing regulations and develops revisions to improve clarity, efficiency and effectiveness. For each control measure, staff assesses potential emission reductions, technological feasibility, socioeconomic impacts, costeffectiveness, and environmental impacts under CEQA. Staff conducts public workshops and other public involvement processes, prepares staff reports, and makes presentations and recommendations to the Board of Directors at public hearings and committee meetings. Upon adoption, staff submits rules to CARB and EPA for incorporation into the State Implementation Plan, when appropriate. Rule Development staff also manages and coordinates the rule development process for other divisions.

# Justification of Change Request:

The budget has been reduced from FYE 2011 in accordance with Air District-wide reduction directive of a minimum of 15% of Service and Supply expenditures.

### **ACTIVITIES**

Revise Reg. 6-1: General Particulate Matter (2010 CAP control measure SSM 6).

Develop rule for Coke Calcining (2010 CAP control measure SSM 8).

Revise Reg. 9-4: NOx from Residential Furnaces (2010 CAP control measure SSM 11).

Develop rule for NOx from Large Space Heating (2010 CAP control measure SSM 12).

Revise Reg. 5: Open Burning (2010 CAP control measure SSM 7).

Develop other rules identified in 2010 CAP.

Evaluate Further Study measures.

Analyze greenhouse gas emission reduction strategies applicable to District-regulated stationary sources.

Revise lists of VOC-exempt compounds in District rules

Develop control measures for air quality plans and assist in plan development.

Manage rule development process led by staff in other sections and divisions.

Ensure compliance with Federal and State statutes and regulations governing rule adoption.

Respond to information requests regarding rule development.

# **ADMINISTRATIVE SERVICES DIVISION**

The Administrative Services Division provides operational functions for the District, and is comprised of the Finance Office, the Business Office, the Human Resources Office, and the Strategic Facilities Planning Office.

The Finance Office oversees Accounts Payable, Accounts Receivable, Budgeting, and other core functions, and ensures that proper accounting, internal controls and accurate and timely reporting are met.

The Business Office is responsible for contracts, purchasing, non-workers compensation risk management and office support services.

The Human Resources Office is responsible for personnel matters including payroll and benefits, labor and employee relations, recruitment and testing, processing personnel actions, employee performance appraisal and recognition programs, organizational development and training, health and safety compliance, workers compensation and special events coordination.

The Strategic Facilities Planning Office is responsible for the day-to-day operations of Air District facilities, security, safety, and maintenance. The primary objective for FYE 2012 will be the implementation of Phase II of the strategic facility planning process; consisting of scenario development and master planning, including feasibility studies and preliminary close/benefit evaluations to potentially relocate the Air District headquarters.

|   |                                       |
| Description of Program:   |                                       |
| The vehicle maintenance section includes the maintenance of the District's 152-vehicle fleet, an operation of the garage facilities. As of FYE 2010/11, eighty (80) vehicles are leased from Enter Services on a Full Maintenance Program where all routine services are covered up to 100,000 r Seventy two (72) of the vehicles are owned by the District and belong to the Enterprise Mainten Management Program in which Enterprise assists BAAQMD in handling scheduled and non-schrepairs when the on-site maintenance jobs are in a state of overflow. | rprise Fleet<br>miles.<br>iance       |

|   |                                       |
|   |                                       |
| Justification of Change Request:  | -                                     |
| The budget has been reduced from FYE 2010 by 29.41% this is due to the District moving towa more vehicles then purchasing. This program budget may need additional funding for alternative vehicles in due course.  |                                       |

| Program Purpose:   |                         |         |

To provide current and archival information and reference assistance on matters relating to air quality and environment to staff, other environmental agencies, libraries, students and the general public.

### **Description of Program:**

The Library provides materials and information on air quality and related subjects to staff and the public as its primary function. The Librarian selects, orders, and processes books, reports, periodicals, and electronic media, and keeps staff informed of library acquisitions. The Librarian assists staff, the public and other environmental agencies/libraries with reference and research projects in both print and electronic formats, and manages information on the Air District website Library page, including the online public access catalog. The Librarian interacts with Directors and key managerial staff of the District as well as other government agencies and private companies in order to maintain the integrity of answers to queries presented by staff and the public, and also to keep abreast of current information needs.

## Justification of Change Request:

Librarian became aware last year that certain practices for distributing periodical publications were inconsistent with copyright protections. Accordingly, those practices have been modified, but the new practices will result in a significant increased cost to maintain the same distribution list for the same periodicals. They are: Environment Reporter, Inside Cal/EPA, Inside EPA's Environmental Policy Alert, Carbon Conntrol News, and Energy Washington Week. Implementation of electronic document delivery ensures timely receipt of information.

#### **Activities**

Respond to requests for information from staff members.

Respond to requests from public and other libraries and agencies for reference and materials.

Work with EOS International in completing migration of District library catalogs, patron records and serials enumeration and retention. Go live with library catalog and new library webpage.

Provide original copy cataloging of print, non-print and electronic monographs and serials in EOS web product.

Index appropriate articles from professional and trade journals as well as relevant websites providing live links in catalog.

Perform information searches on the Internet and BNA Environment and Safety Library, as requested, and as part of ongoing information awareness monitoring.

Route periodicals, convert newsletters to electronic routing adhering to copyright law.

Shelve books, prepare periodicals for binding, read shelves for error, weed collection and reorganize stack space.

Overhaul library catalog: reports, books, articles and correct or update entries to adhere to AACR2 (Anglo-American Cataloging Code) format. Continue to standardize existing records.

Library management, marketing and space planning.

Post bi-monthy acquisitions list and current periodical holdings on District website library page

| MAJOR OBJECTIVES   | Delivery<br>Date |
|--|------------------|
| Provide in-depth reference service to staff, public and other agencies and libraries.  | ongoing          |
| Retrieve documents requested by staff at minimal or no cost by networking with colleagues.   | ongoing          |
| Continue to work with EOS International in migrating all library and staff records.  | ongoing          |
| Redesign library page on District website to include access to library catalog with search function, availability status, serials list, links to related agencies and library catalogs, and password restricted staff sign-in for direct contact with librarian. | ongoing          |
| Keep library holdings and software current and pertinent to increasing scope of BAAQMD.  | ongoing          |
| Acquire second computer workstation for staff and add scan/distribute capability to library photocopier.   | ongoing          |
| Conduct collection inventory and update catalog to accurately reflect status of the collection. Acquire copies of archival BAAQMD publications located in the San Francisco Public Library that are not currently in our collection.                             | ongoing          |
| Remain active in local "Special Libraries Association" (SLA) and participate in SLA sponsored dinners, lectures and seminars.  | ongoing          |
| Evaluate new journals and books for inclusion in the BAAQMD library and websites for posting on the District Library webpage.  | ongoing          |

# INFORMATION SERVICES DIVISION

The Information Services Division is comprised of three programs that provide various types of operational support and services to all District staff and directly to members of the regulated community that use District on-line technologies.

Information Technology Operations and Support. Under this program, District staff provides design, implementation, security and maintenance of all computer server infrastructures including but not limited to email, telephone, network, file storage, disaster recovery, financials, timekeeping, building security, and remote connection. The support team in this program provides user support to District staff for all technologies and user support to outside members of the regulated community that utilize on-line District technologies.

Information Systems Software Development. District business processes change as new programs are added or altered by regulatory changes, or new business practices. Under this program, the Division manages changes to District computer solutions that are needed to accommodate business process changes. The District's Production System Project is primarily managed under this program.

Information Management Records and Content. Under this program District staff provides technical support, security, functional changes and configuration management for all systems that contain controlled information such as: financials, document archives (physical and digital), web content, and email archives.

| John Chiladakis  |               |
| Program Purpose:   |               |
| Provide computer and telecommunications infrastructure. Provide service and support for st   | aff.          |
|  |               |
| Description of Program:  |               |
| Operate, engineer, purchase, install, upgrade, maintain, and repair new software systems, conetworks, network servers, telephone systems, voicemail systems, firewalls, personal computworkstations, file and database servers, and operating system and application software. |               |
| workstations, the and database servers, and operating system and application software.   |               |
|  |               |
| Justification of Change Request:   |               |
| Additional funds are added to maintain legacy systems that are being replaced during FYE 2   | 012.          |
|  |               |
|  |               |
|  |               |
|  |               |
| ACTIVITIES   |               |
|  |               |
| Operation and system administration of HP-3000 business system.  |               |
| Administration of Fujitsu telephone system.  |               |
| Administration of Octel voice mail system.   | · · ·         |
| Administration of local area network, file servers, and internet access.   | •             |
| Operation and system administration of HP-9000 database servers.   |               |
| Administration of INGRES Relational Database Management System.  |               |
| Operate and administer new Finance and HR systems environment.   |               |
| Maintenance and License for new Finance and HR systems (after 1st year).   |               |
| Maintenance of AIX System.   |               |
| Purchase, installation, upgrade, maintenance, and repair of PCs and printers.  | <del></del>   |
| Administration of MS Exchange, Internet e-mail and remote access systems.  |               |
| Administration of personal computer operating system and applications software.  |               |
| Support District Website. Administer WEB and DNS server.   |               |
| Administration of Windows NT servers.  |               |
| MAJOR OBJECTIVES   | Delivery      |
| Maintain computer operations availability for 10 hours/day, 7 days/week.   | Date<br>Daily |
| Provide communications availability for 10 hours/day, 7 days/week.   | Daily         |
| Maintain LAN operations availability for 10 hours/day, 7 days/week.  | Daily         |
| Maintain network routers and firewall.   | Monthly       |
| Provide system administration support for JD Edwards.  | Monthly       |
| Support, troubleshoot and maintain personal computers.   | Weekly        |
| Support and upgrade remote access capabilities.  | Monthly       |
| Maintain voice messaging system, including menus and changes for field staff.  | Monthly       |
| Manham voice messaging system, moluting menus and changes for neid staff.  | T MOUGH.      |

# **TECHNICAL SERVICES DIVISION**

The Technical Services Division provides meteorological and ambient air monitoring, quality assurance, laboratory analyses, air quality and burn forecasting, and source testing to the Compliance & Enforcement, Engineering, Planning, Legal, and Communications and Outreach Divisions. The Technical Services Division will continue to provide technical service support to all Division programs as required with available human and financial resources.

The Technical Services Division will continue to maintain as many services provided in the FYE 2011 budget as possible, while incorporating newly mandated activities during FYE 2012. These continuing and expanded activities include:

Continue to provide additional particulate, toxics and meteorological monitoring and analysis in support of the CARE program.

Continue to operate the relocateable air monitoring station in the City of Cupertino in cooperation with the City of Cupertino.

Continue to provide additional sampling and analyses in support of the National Air Toxic Trends Station (NATTS) program and various CARB programs.

Install and operate equipment at three new Photochemical Assessment Monitoring Stations (PAMS) to provide data no later than the ozone season of 2012.

Continue to operate a federally mandated air monitoring program for biological compounds.

Continue upgrade of laboratory analytical instruments to better identify organic compounds that have been delisted as ozone precursors and to enhance the laboratory's ability to analyze for additional organic and toxic compounds.

Continue to provide Organic Carbon/Elemental Carbon (OC/EC) analysis in support of the CARE program and other projects.

Provide X-ray Fluorescence analysis for metals in support of EPA programs and special projects.

Continue to conduct additional and enhanced compliance testing and laboratory analysis on sources of volatile organic compounds.

Continue to conduct additional testing at gas stations and gasoline cargo tanks subject to the CARB's Enhanced Vapor Recovery regulation.

Include information regarding emissions of greenhouse gases in source test reports.

Evaluate an additional 1,100 source tests conducted by outside contractors.

Provide internet access to the results of District-conducted and contractor-conducted tests at facilities subject to Federal Title V requirements.

Maintain the Air Monitoring Quality Management Plan (QMP) and Quality Assurance Project Plan (QAPP).

Provide information, data, and technical review as required for the District's Community Outreach and Title V Programs.

Continue to provide daily air quality forecasting and enhance burn forecasting for the District's Open Burning Regulation to meet California's Title 17 requirements.

Continue to operate the Air District meteorological network.

Continue to quality assure air quality data and load the data into the EPA AQS database.

Continue to perform performance evaluations of air monitoring instruments.

Continue and expand  $PM_{2.5}$  speciation sampling and continuous  $PM_{2.5}$  monitoring to provide data to help understand the temporal and spatial variation and sources of  $PM_{2.5}$ , and support AQI forecasting.

Continue to operate additional air toxics samplers in support of new EPA emphasis on toxics.

Continue to upgrade the air monitoring and meteorology data acquisition systems to support the District goal of providing real-time access to air quality and meteorological data.

#### AMBIENT AIR MONITORING

802

Managing Division:

**Technical Services** 

**Contact Person:** 

Glen Colwell

# Program Purpose:

Provide the data required to determine the Bay Area's attainment status for National and State ambient air quality standards. The data also provides a measure of progress toward such attainment.

#### **Description of Program:**

The primary function of the Air Monitoring Program is to operate and maintain a 27 station monitoring network and the 22 station meteorological network. The monitoring network provides the data required to determine attainment status of both National and State ambient air quality standards. Additionally, a network of toxics monitors collect data to develop trends and help define risk, and for National and State programs. Air monitoring and meteorological data are also used for Air Quality Index (AQI) forecasts, Clean Air Plan (CAP) modeling, Prevention of Significant Deterioration (PSD) modeling, and Environmental Impact Reports (EIRs). Sampling projects such as the National Air Toxic Trends Sites (NATTS) and PM2.5 speciation sampling provide data for the development of CAPs, new and modified regulations and National and State sampling strategies. The Air District received funding to develop and operate three Precursor Air Monitoring Stations (PAMS) which are scheduled to become operational this fiscal year.

#### Justification of Change Request:

PM2.5 Speciation costs of \$86,000 have been included in the Professional Services category that were previously included in the Capital Equipment category. Additional funds of \$34,544 were also required in the Laboratory Services and Supplies to provide support for PAMS and cover increased costs. With the exception of costs associated with grant-mandated activities, as well as requited increases for rents and utilities, requested 15% budget cuts were made to applicable budget items.

## **ACTIVITIES**

Operate and maintain an air monitoring and meteorological station network to provide a minimum of 90% valid data each quarter to determine the attainment status for National and State ambient air quality standards.

Operate and maintain air monitoring stations to assess SO2 and H2S emissions from large industrial sources.

Operate and maintain non-criteria pollutant monitors to provide data on ozone precursors, data for ozone forecasting, and data for fine particulate forecasting.

Operate and maintain non-criteria pollutant monitors to provide data on ozone precursors, data for ozone forecasting, and data for fine particulate forecasting.

Operate a three-station PAMS network in accordance with the Environmental Protection Agency's (EPA) requirements.

Operate an 18-station toxics network to provide data for State and District programs.

Perform quality control checks on criteria pollutant monitors required by EPA and California Air Resources Board (CARB) Regulations, review data, submit precision reports and repair equipment.

Perform quality control checks on non-criteria pollutant monitors to assure data quality, review data, and repair equipment.

Operate 5 fine particulate samplers to satisfy the monitoring requirements of the National ambient air quality standards for PM2.5 (fine particulate).

Perform toxics sampling at two sites for CARB.

Operate additional equipment as defined by EPA's NATTS requirements at the San Jose Air Monitoring Station.

Operate 12 continuous fine particulate samplers and four speciation samplers to provide additional information on PM2.5 (fine particulates).

Participate in interdivisional teams including, but not limited to, regulation and manual of procedures improvement, website, special studies and customer service.

Provide additional monitoring in support of the District's CARE program.

Respond to record requests for information on air quality and related issues from the public, industry, consultants, and other government agencies. In addition, respond to requests to provide presentations for District functions including Board and Committee presentations, outreach and community issues.

Operate one full, relocatable monitoring station in the City of Cupertino.

Provide assistance to Community Outreach activities, as required.

| MAJOR OBJECTIVES   | Delivery<br>Date |
|--|------------------|
| Process data that has been subjected to rigorous Quality Control (QC) as part of National, State and District programs.                  | Quarterly        |
| Complete upgrade of data collection system at 16 full monitoring stations and 10 satellite monitoring stations.                          | 6/30/2012        |
| Monitor ambient toxics from 7/1/11-6/30/12and provide rigorously quality-control-reviewed data to interested State and District parties. | 6/30/2012        |
| Operate four PM2.5 speciation monitors to further enhance the understanding of PM2.5 composition.  | 6/30/2012        |

## Program Purpose:

Provide laboratory, analytical, and technical services and support to other District Divisions and Sections.

# **Description of Program:**

The primary function of the Laboratory Program is to provide laboratory analyses, analytical services and technical support to other divisions, sections and special programs in completing their objectives. The Laboratory Program evaluates analytical methods and develops new ones as required by new and amended District regulations. The analytical services of the program also provide technical information for enforcement action, permit evaluation and regulatory standard development. Close liaison is maintained with other air pollution agencies and technical groups.

# Justification of Change Request:

The funds in Conference and Seminar Registration were shifted to Professional Services to due changes made in the asbestos program. The Capital equipment account was reduced to accommodate the overall 15% reduction in laboratory discretionary accounts.

#### **ACTIVITIES**

Perform up to 200 compliance analyses for the Compliance & Enforcement Division.

Provide up to 50 complete sample analyses for the Source Test Program.

Provide 750 ambient air toxic sample analyses for the Air Monitoring, NATTS and CARE Programs. Perform GC/MS analysis on selected samples to detect more potentially toxic compounds.

Analyze 800 PM10 filters for the Air Monitoring Program, including anion and cation speciation.

Perform Elemental Carbon/Organic Carbon analyses (EC/OC) on up to 1000 PM 10 filters in support of CARE and other District programs.

Develop, modify and recommend analytical methods to support enforcement action and to provide support for rule development in the Planning Division.

Analyze up to 2,300 PM 2.5 filters for the Air Monitoring Program.

Perform Xray Flourescence analysis for metals on up to 250 samples collected by Air Monitoring Section in support of various programs.

Perform HPLC analyses for carbonyls in up to 200 samples collected by the Air Monitoring Section in support of NATTS and CARE programs.

Participate in 8 interlaboratory audit test programs for toxic compounds conducted by CARB and EPA.

| MAJOR OBJECTIVES   | Delivery<br>Date |
|--|------------------|
| Provide the Compliance & Enforcement Division with analytical data from 200 samples to support enforcement action.                                   | 6/30/2012        |
| Provide the Source Test Program with analytical data from 50 samples to support the District's Testing Program.                                      | 6/30/2012        |
| Provide the Air Monitoring Program with analytical data for toxic organic compounds in 750 ambient air samples.                                      | 6/30/2012        |
| Provide the Air Monitoring Program with analytical data from 800 PM 10 filters, including EC/OC and anion/cation speciation.                         | 6/30/2012        |
| Develop, modify and recommend analytical methods to support enforcement action and to provide support for rule development in the Planning Division. | 6/30/2012        |
| Provide the Air Monitoring Program with analytical data from 2,300 PM 2.5 filters.   | 6/30/2012        |
| Provide the Air Monitoring Program with analytical data for metals in 250 samples in support of various programs.                                    | 6/30/2012        |
| Provide the Air Monitoring Program with analytical data for carbonyl compounds in 200 samples in support of the NATTS and CARE programs.             | 6/30/2012        |
| Participate in and complete 8 interlaboratory audits for toxic compounds conducted by CARB and EPA.  | 6/30/2012        |

| Program Purpose:  |  |  |  |
| Provide source testing and technical expertise to District Divisions.   |  |  |  |
| Description of Program:   |  |  |  |
| The primary functions of the Source Test Program are to (1) conduct analytical source tests performance audits on Continuous Emissions Monitoring (CEM), (3) review third party source research and develop new analytical source test procedures, and (5) produce engineering sequencement compliance status for specific source categories, determine whether to issue Per Operate, update the emissions inventory, determine actual abatement control effectiveness & technical assistance for District studies and develop applicable standards for new or revisions. | ce tests, (4) studies used to mits to , provide data |  |  |
| Justification of Change Request:  |  |  |  |
| ACTIVITIES  |  |  |  |
| Conduct at least 90 instrumental gaseous source tests.  |  |  |  |
| Conduct up to 30 particulate or toxics source tests.  |  |  |  |
| Conduct at least 160 Field Accuracy Tests (FATs) on Continuous Emissions Monitor (CEM)  | ) systems  |  |  |
| Conduct up to 12 source tests at gasoline bulk terminals and bulk plants.   | , -, -, -, -, -, -, -, -, -, -, -, -, -,             |  |  |
| Conduct at least 300 source tests on gasoline cargo tanks.  |  |  |  |
| Conduct up to 30 Enhanced Vapor Recovery source tests at Gasoline Distribution Facilities   | (GDF)  |  |  |
| Evaluate up to 450 indicated excesses and other CEM-related call-ins.   |  |  |  |
| Maintain an electronic list of all source tests conducted at Title V facilities.  |  |  |  |
| Provide source testing support for up to 3 rule development efforts.  | -  |  |  |
|   |  |  |  |

| MAJOR OBJECTIVES  | Delivery<br>Date                                     |  |  |
| Prepare reports on emissions from various source categories.  | 6/30/2012  |  |  |
| Prepare reports on particulate/toxic emissions from specific sources.   | 6/30/2012  |  |  |
| Prepare quarterly and annual summary of CEM data from specific sources.   | 6/30/2012  |  |  |
| Prepare reports on VOC emissions from gasoline bulk terminals and plants. 6/30/201  |  |  |  |
| Prepare reports on VOC emissions from gasoline cargo tanks. 6/30/2012   |  |  |  |
| Provide monthly reports on indicated excesses from CEM systems.   | 6/30/2012  |  |  |
| Prepare reports on compliance rates and emissions, based on outside contractor tests.   | 6/30/2012  |  |  |

# **Program Purpose:**

The purpose of the Meterology Program is to provide open burning and pollutant forecasts; collect, validate, analyze, and disseminate aerometric and meteorological data; manage and maintain meteorological network; conduct transport, forecast and related studies; recommend enforcement actions.

# Description of Program:

The primary function of the meteorological program is to provide the daily forecasting of weather factors relevant to air pollution potential. The forecasts include: (1) air quality forecasts, including the Air Quality Index (AQI) forecast as mandated by 40 CFR 58.50; (2) open burn forecasts; (3) special forecasts for programs such as mandatory curtailment of wood burning or vehicle usage, including Spare the Air/Spare the Air Tonight Programs; and (4) episode/alert forecasts when contaminant levels specified in Regulation 4 are predicted. Data analysis objectives include the validation, compilation and interpretation of meteorological and air quality data, including internal and external distribution, and transmitting data to EPA-Air Quality System (AQS). Other objectives include evaluation of source receptor relationships for legal actions, determination of weather factors for assessment of long-term air quality trends and establishment of data bases and relationships for use in modeling of attainment objectives and long range transport studies.

## Justification of Change Request:

Additional funds of \$45,000 were moved to Professional Services to provide support for the Data Management system previously accounted for in Capital Equipment. With the exception of costs associated with grant-mandated activities, as well as requited increases for rents and utilities, requested 15% budget cuts were made to applicable budget items.

#### **ACTIVITIES**

Provide reliable and timely Air Quality forecasts to the District and the public on weekdays, including voluntary curtailment programs.

Provide reliable and timely Air Quality Index (AQI) forecasts to the District and the public on weekends and holidays.

Provide reliable and timely burn forecasts to the District and the public.

Review prescribed burn plans and marsh burn plans and give acreage allocations as needed for these burns.

Provide certified Air Quality Data to CARB and EPA within 90 days of end of a quarter.

Provide Annual Monitoring Network Review to EPA and CARB.

Provide input to operation of the Meteorological Network and evaluate quarterly calibrations of the Meteorological Network.

Provide certified Air Quality Data to permit-related District staff.

Provide certified Air Quality Data to non-permit related District staff.

Monitor and review data from Ground Level Monitoring Network and provide evaluation reports to Enforcement Division on compliance with Air Quality Regulations.

Transfer and reorganize Air Quality and Meteorological Database, w/AQS Output.

Participate in group efforts to develop Regulations, Manual of Procedures, Web Page, joint transport assessment studies and other programs as assigned.

Develop forecast models for winter and summer conditions, including models and databases for National ozone and particulate standards.

Respond to record requests for information on air quality and related issues from the public, industry, consultants, and other government agencies. In addition, respond to requests to provide presentations for District functions including Board and Committee presentations, community outreach and public information.

| MAJOR OBJECTIVES   | Delivery<br>Date |
|--|------------------|
| Submit Certified Air Quality Data to EPA's AQS Data Base.  | Quarterly        |
| Provide air quality, meteorological, and GLM data in electronic format to provide access to these data through the Internet. | Quarterly        |
| Prepare and submit Annual Air Monitoring Network Review Report to EPA.   | 6/30/2012        |
| Continue improvements to the new database for air quality and meteorological data.   | 6/30/2012        |
| Provide air quality and burn acreage allocations daily to meet District needs.   | Ongoing          |

| Program Purpose:   |                                 |
| The purpose of the 807 Program is to provide performance evaluation services for Air Monit Meteorology Programs. Performance evaluations (also known as quality assessments) are a meet data validation objectives of these programs. The Performance Evaluation (PE) Group evaluates equipment and siting for air quality monitoring performed by consultants within the boundaries.  Description of Program:   | required to<br>p also           |
| · · · · · · · · · · · · · · · · · · ·  | the Districts                   |
| The primary function of the PE Program is to ensure the accuracy of data collected through air monitoring and meteorological networks. The monitoring network provides the data required determine attainment status of both National and State ambient air quality standards. The Presponsible for audits and data evaluation of the H2S and SO2 ground level monitors (GLM) operation of H2S and SO2 mobile sampling units for odor complaint investigation and epison | ired to<br>PE Group is<br>) and |

| Glen Colwell  |                  |
| Program Purpose:  |                  |
| Operate and maintain the Bay Area BioWatch network for the Federal Department of Homel (DHS) in cooperation with the EPA.   | and Security     |
| Description of Program:   |                  |
| The BioWatch Monitoring Program consists of a network of sample collection units located the Bay Area. Filter media are collected and replaced on a daily basis. Exposed filter housing a to an outside laboratory for analysis. The network operates 24 hours a day, 365 days a year program is fully funded by a Department of Homeland Security grant. | re delivered     |
| Justification of Change Request:  |                  |
| No change.  |                  |
|   |                  |
| ACTIVITIES  |                  |
| Operate and maintain BioWatch collection sites to provide exposed filter media for laborator  | y analysis.      |
| Provide training and contract oversight for the BioWatch program.   |                  |
| Implement Consequence Management Plan for the BioWatch program.   |                  |
|   |                  |

#### STRATEGIC INCENTIVES DIVISION

The Strategic Incentives Division administers grant programs to facilitate the execution of projects or programs focused primarily on the reduction of emissions from mobile sources in the Bay Area. The grant programs include the Transportation Fund for Clean Air (TFCA), the Carl Moyer Program (CMP), Mobile Source Incentive Fund (MSIF), the Lower-Emission School Bus Program (LESBP), the Vehicle Buy Back Program (VBB), the Vehicle Incentive Program (VIP), the California Goods Movement Bond Program (CGMB), the Diesel Emission Reduction (DER) Act Program and other miscellaneous grant programs. These programs support the implementation of transportation and mobile source measures, as well as energy reduction efficiencies. In FYE 2011 the Strategic Incentives Division will administer over \$131 million in grant funds.

### CARL MOYER PROGRAM ADMINISTRATION 307 Managing Division: Strategic Incentives Contact Person: Anthony Fournier **Program Purpose:** Implementation of the Carl Moyer Program (CMP), which provides grants for the execution of projects that reduce emissions from heavy-duty engines. **Description of Program:** The District implements the CMP, with funding from CARB, to award grants and incentives to eligible project sponsors and project types. District staff conducts outreach and solicits grant applications, reviews the grant applications according to established criteria, recommends allocation of the funding, monitors progress in implementing funded projects, and reports on the use of funds. This program also includes assessment of mobile source technologies in support of the grant-making function. Justification of Change Request: No change. **ACTIVITIES** Develop guidelines and policies for expanded CMP (Year 13 funding cycle). Implement grant program, conduct outreach and solicit grant applications to provide CMP funds as incentives for the implementation of eligible project types, evaluate grant applications, prepare grant award recommendations, and coordinate execution of funding agreements with grantees. Administer and monitor projects that have been awarded CMP grants. Conduct procurement processes for selection of contractor(s) to provide support services related to the implementation of the CMP. Prepare reports to CARB on the implementation of the CMP.

| MAJOR OBJECTIVES   | Delivery<br>Date |
|--|------------------|
| Finalize guidelines and policies for the expanded CMP (Year 13 funding cycle), consistent with CARB guidelines.              | 7/1/2011         |
| Establish criteria for project evaluation to comply with CARB's guidelines for the CMP.                                      | 7/1/2011         |
| Issue call for grant applications and conduct outreach for allocation of CMP funds (Year 13 funding cycle).                  | 7/1/2011         |
| Evaluate grant applications and prepare grant award recommendations for Board of Directors approval (Year 13 funding cycle). | 6/30/2012        |
| Issue funding agreements (contracts) for CMP grants awarded (Year 12 and 13 funding cycles).                                 | 6/30/2012        |
| Process payments, review project reports, inspect and close out on-going projects.   | 6/30/2012        |
| Submit reports to CARB on the implementation of the CMP.   | 8/31/2011        |

# Managing Division: Strategic Incentives Contact Person: Karen M. Schkolnick

#### **Program Purpose:**

Administer motor vehicle registration fee surcharge revenues to reduce emissions from on-road vehicles.

#### **Description of Program:**

Funding for the Transportation Fund for Clean Air (TFCA) comes from a \$4 surcharge on motor vehicle registration fees within the District's jurisdiction. State law prescribes that the proceeds be divided into county and regional portions, and that funding be used to implement specific types of projects and programs to reduce motor vehicle emissions in accordance with transportation and mobile source measures, as stated in the District's strategies to attain State air quality standards. TFCA funding is divided into two portions: 60% of the fund is administered by the District, and 40% is administered by Bay Area County Managers oversight and supervision. TFCA is a grant program with an annual funding cycle for which staff performs outreach and solicit grant applications from eligible project sponsors, reviews the grant applications according to established criteria, recommends allocation of the funds for Board of Directors' approval, performs administrative tasks of and monitors progress in implementing funded projects, reports on the use of the funds, and audits recipients of the funds as required by State law.

#### Justification of Change Request:

No change.

#### **ACTIVITIES**

Prepare FYE 2012 funding agreements for County Program Managers.

Review FYE 2012 Regional Fund applications and recommend projects for approval.

Prepare FYE 2012 funding agreements for Regional Fund recipients.

Prepare recommendations for Board of Directors consideration of FYE 2013 TFCA County Program Manager and FY 2012-13 Regional Fund program policies.

Prepare and distribute FYE 2013 Program Manager expenditures program forms and guidance.

Prepare and distribute FYE 2013 Regional Fund application guidance. Conduct application workshops and outreach to perspective sponsors.

Review and recommend action on FYE 2013 County Program Manager expenditure plans.

Complete audit of TFCA projects.

Track status and performance of TFCA-funded project and update databases...

Promote TFCA program - availability of grants and accomplishments of projects.

| MAJOR OBJECTIVES   | Delivery<br>Date |
|--|------------------|
| Prepare recommendations for Board of Directors consideration of FY 2012-13 TFCA county Program manager policies.                                   |                  |
| Prepare and distribute FY 2012-13 TFCA County Program Manager expenditure program format and guidance.   | 12/31/2011       |
| Review and recommend action on FY 2012-13 TFCA County Program Manager expenditure plans.   | 5/31/2012        |
| Prepare FY 2012-13 funding agreements for TFCA County Program Managers.  | 6/30/2012        |
| Prepare recommendations for Board of Directors consideration of FY 2012-13 TFCA Regional Fund Program policies.                                    |                  |
| Review FY 2011-12 TFCA Regional Fund applications and recommend projects for Board of Directors approval.  | 5/31/2012        |
| Prepare FY 2011-12 funding agreements for TFCA Regional Fund recipients.   | 6/30/2012        |
| Prepare and distribute FY 2012-13 TFCA Regional Fund application guidance. Conduct outreach and solicit grant applications for TFCA Regional Fund. | 5/31/2012        |
| Prepare FY 2011-12 TFCA report on allocations and effectiveness for Board of Directors.  | 4/30/2012        |
| Conduct audit of TFCA projects and complete TFCA audit report.   | 6/30/2012        |

#### MOBILE SOURCE INCENTIVE FUND ADMINISTRATION (MSIF) 310 **Managing Division:** Strategic Incentives Contact Person: Anthony Fournier

#### Program Purpose:

Administer funding allocation of additional motor vehicle surcharge revenues authorized by AB 923.

#### **Description of Program:**

The Mobile Source Incentive Fund (MSIF) is a grant program funded with an additional \$2 surcharge on for motor vehicles within the Air District's jurisdiction. State law prescribes that the funding be used to implement specific types of projects and programs. Funds can be allocated to the following eligible projects and programs, according to established criteria: Lower-Emission School Bus Program, projects eligible for Carl Moyer Program funds, and selected agricultural projects. Staff recommends fund allocation to eligible projects and programs for Board of Directors approval, monitors progress in implementing funded projects, reports on the use of the funds, and coordinates verification of requirements compliance. This program also includes assessment of mobile source and transportation technologies and programs in support of the grant-making function.

#### Justification of Change Request:

No change.

#### ACTIVITIES

Coordinate program implementation.

Prepare funding allocation recommendations for Board of Directors approval.

Develop and coordinate outreach efforts related to the program.

Complete audit of projects funded by MSIF.

Administration of the program and monitoring progress of funded projects and programs.

Implement Lower-Emission School Bus Program to provide incentives for school districts to replace old school buses with new, lower-emission school buses.

Implement other projects and programs eligible for MSIF funding including projects eligible for Carl Moyer Program funding, and selected types of agricultural projects.

| MAJOR OBJECTIVES   | Delivery<br>Date |
|--|------------------|
| Define allocation of available funds to eligible projects and programs.  | 3/1/2012         |
| Obtain Board of Directors approval of funding allocation recommendations.  | 6/30/2012        |
| Prepare and coordinate execution of funding agreements.  | 6/30/2012        |
| Conduct outreach to potential project sponsors.  | 3/1/2012         |
| Conduct outreach, solicit applications, award grants, implement funding agreements, process payments, monitor progress of funded projects, and report to CARB on the implementation of the Lower-Emission School Bus Program.  | 1/1/2012         |
| Projects Eligible for Carl Moyer Program and Selected Agricultural Projects (as appropriate): conduct outreach, solicit and evaluate applications, recommend grant awards, prepare funding agreements, process payments, monitor progress of funded projects, and prepare reports as needed. | 6/30/2012        |
|  | 1                |

| Program Purpose:  |                  |
| Administer funding allocation of carbon offset fund revenue.  |                  |
|   |                  |
|   | ,                |
|   |                  |
| Description of Program:   |                  |
| On September 10, 2007, ConocoPhillips Company (COP) entered into a settlement agreement   | with the         |
| Attorney General of California which resulted in COP making a one-time payment of approxima   |                  |
| million to a carbon offset fund created by the Air District. On November 24, 2008, the Air District into a Memorandum of Understanding with the Attorney General regarding the establishment of |                  |
| offset fund and the implementation of a greenhouse gas reduction Grant Program (GGRGP) to   |                  |
| grants for projects to achieve verifiable, quantifiable reductions in GHG emissions, with priority  |                  |
| projects near the Rodeo Refinery.   |                  |
|   |                  |

| Description of Program:   |                  |
| This program, established in 2010, is focused on identifying and securing new sources of funding Bay Area region. In FY 2011/2012, staff will pursue funding from Federal, State, local and privasources. Over time, this program will seek to expand the availability of funding and create new opportunities for projects that reduce criteria pollutants, greenhouse gases, and toxic air contar from mobile and stationary sources. | ate              |

#### REGIONAL BIKESHARE PROGRAM

315

Managing Division:

Strategic Incentives

**Contact Person:** 

Karen Schkolnick

#### Program Purpose:

Administer funding to pilot a regional BikeShare program.

#### **Description of Program:**

On October 27, 2010, the Air District was awarded \$4.291 million in funding by the Metropolitan Transportation Commission (MTC) to develop and implement a pilot Bike Share program in the Bay Area. The pilot will deploy approximately 1,000 shared bikes along the Peninsula transportation corridor at five locations in San Francisco, San Mateo, and Santa Clara counties. The Program is anticipated to be developed over a 12 month period and will be followed by an additional 12 - 24 months of operations (testing) and data collection. Additional funding for this program is provided by the Air District's Transportation Fund For Clean Air (\$1.4 million), partners, and revenue from user fees.

#### **Justification of Change Request:**

New program.

#### **ACTIVITIES**

Develop and issue a Request for Proposals for bike share equipment and services.

Lead Technical Advisory Committee (TAC) comprised of Air District staff and partners to review and evaluate RFP bids, make vendor(s) recommendation for award, review program progress, and recommend options for post-pilot operations.

Prepare and execute contracts with bike share equipment and service providers.

Perform administrative duties including: processing of invoices, preparation and submission of federal aid documentation, reimbursement claims to Caltrans, and preparation and submission of progress reports to MTC and Caltrans.

Research sustainable program finance models, revenue enhancement opportunities, integration with universal card system (i.e., Clipper), and options for post-pilot program ownership.

Promote bike share program.

| MAJOR OBJECTIVES  | Delivery<br>Date |
|---|------------------|
| Conduct RFP process for bike share equipment and services.  | 9/1/2011         |
| Convene TAC for review of RFP bids and recommendation of vendor(s) for award.   | 9/1/2011         |
| Execute agreement with selected vendor(s).  | 11/1/2012        |
| Complete permitting, equipment purchases and installation of bike share stations  | 6/1/2012         |
| Initiate deployment of bikesharing in five Bay Area communities (program to be phased in and operate for a minimum of 12 months in each area).  | 6/30/2012        |
| Convene TAC for review of program implementation.   | Ongoing          |
| Research sustainable program finance models, revenue enhancement opportunities, integration with universal card system (i.e., Clipper), and options for post-pilot program ownership.   | Ongoing          |
| Perform administrative duties including: processing of invoices, preparation and submission of federal aid documentation, reimbursement claims to Caltrans, and preparation and submission of progress reports to MTC and Caltrans. | Ongoing          |

| CARSHARING INCENTIVE PROGRAM   | 316  |
|--|--|
| Managing Division:   |  |
| Strategic Incentives   |  |
| Contact Person:  |  |
| Karen Schkolnick   |  |
| Program Purpose:   |  |
| Administer funding to implement a zero-emission carshare incentive program for the Bay Area C Foundation   | Clean Air                                  |
| Description of Program:  |  |
| On November 29, 2010, the U.S. District Court awarded the Bay Area Clean Air Foundation \$54 from a Reformulated Gas Settlement Open Grants Program. The program, administered by the District in partnership with City CarShare, will seek to convert 10 hybrid electric vehicles to plug-electric vehicles, deploy the vehicles as part of City CarShare's fleet to promote car sharing in the Area, evaluate deployment of plug-in electric vehicles, and disseminate best practices for carship Under the program, incentives will be offered to encourage use of the plug-in vehicles for short of which will maximize use of electric drive and thus maximize emissions and fuel benefits. | e Àir<br>-in hybrid<br>ne Bay<br>aring.    |
|  |  |
| Justification of Change Request:   |  |
| New program.   |  |
|  |  |
| ACTIVITIES   |  |
| Oversee City CarShare's conversion of 10 hybrid vehicle to plug-in electric hybrids, completion of vehicles, and deployment of converted vehicles into their fleet.  | of testing                                 |
| Track and monitor performance data on vehicles, user satisfaction, number of new members cit converted vehicles, project outreach and incentives as reasons for joining.   | ing the                                    |
| Prepare and submit progress and expenditure reports to Cy Pres Grants Administrators.  |  |
|  |  |

| Program Purpose:   |             |
| Administer funding to implement a regional electric vehicle deployment incentive program.  |             |
|  |             |
|  | •           |
|  |             |
| Description of Program:  |             |
| On August 4, 2010, the Bay Area Air Quality Management District Board of Directors allocated   | \$5 million |
| to support Electric Vehicle (EV) infrastructure projects. The Air District's support of EVs will incl  |             |
| deployment of infrastructure charge spots (in homes and public locations) through an EVSE Ch   |             |
| Deployment Incentives Program. Additionally, there is a project coordination component to ens  |             |
| of the program elements are executed effectively.  |             |

| Program Purpose:   |                                |
| The purpose of this program is to protect public health by reducing the emissions associated w movement.   | ith goods                      |
| Description of Program:  |                                |
| In 2007, the California State Legislature enacted Senate Bill 88 authorizing \$1 billion in bond fur four years for projects to protect public health from emissions associated with goods movement 2011, CARB is combining two years of funding, \$500 million for the program, of which the District elevente approximately 14% or \$70 million. The District will submit an application to CARB to act the program. Upon approval of this application, District staff will solicit applications, review grant applications according to established criteria, recommend allocation of the funding, monitor profimplementing funded projects and report on the use of funds. | t. ## **APPENDIX A**

## PROGRAM ORGANIZATIONAL CHART SUMMARY

#### APPENDIX B

#### SELECTED LEGAL REQUIREMENTS

The following highlights selected major legal requirements regarding the use and collection of funds that are considered when developing and reviewing the Air District's budget:

- Federal law requires that the Air District collect fees from affected facilities to fund the
  implementation of Title V of the Federal Clean Air Act (42 U.S.C. Section 7401, et seq. and
  implementing regulations in 40 CFR Parts 60 and 70). Implementation of Title V includes all
  activities involved in the review, issuance, and enforcement of Title V Permits. "Affected facilities"
  include all major stationary sources as defined in the Federal Clean Air Act.
- 2. Revenue received by the Air District pursuant to California Health and Safety Code Section 44220, et seq. (Transportation Fund for Clean Air (TFCA)) may only be used to fund approved projects, and certain expenditures incurred for administration of the TFCA program, including audits. The expenditures for the administration of TFCA grants are contained in the Transportation Fund for Clean Air Administration, Program #308. Air District sponsored and managed TFCA projects include the Smoking Vehicle Program #304; a portion of Intermittent Control Programs #306, Transportation fund for clean Air Administration #308 and Regional Bikeshare Program #315.
- 3. Permit fee revenue may only be used to fund activities associated with the permitting, monitoring, and enforcement of regulations affecting permitted stationary sources. Past audits of District activities have shown that the Air District's programs meet this test.
- Funding from several sources, including grants, is restricted, and thus may only be used to fund certain activities. Air District accounts are periodically audited to ensure that such funds are used appropriately.
- 5. California Health and Safety Code Section 40131(a)(3) requires that two public hearings be held regarding the adoption of the District budget. The first hearing is for the exclusive purpose of reviewing the budget and providing the public with the opportunity to comment upon the proposed budget. This hearing must be separate from the hearing at which the District adopts its budget. The adoption hearing may not be held any sooner than two weeks after the first hearing. Thirty (30) days public notice must be given before the first public hearing.
- 6. The Maintenance of Effort (MOE) level refers to a Federal EPA Section 105 grant condition. This condition states that, "No agency shall receive any grant under this section during any fiscal year when its expenditures of non-Federal funds for recurrent expenditures for air pollution control programs will be less than its expenditures were for such programs during the preceding fiscal year unless the Administrator, after notice and opportunity for public hearing, determines that a reduction in expenditures is attributable to a non-selective reduction in the expenditures in the programs of all Executive branch agencies of the applicable unit of Government." Depending on the expenditures reported on the Federal Status Report (FSR) at the conclusion of the federal FYE 2011, receipt of the Federal grant funds for FYE 2012 could be delayed or jeopardized because of this MOE requirement.

| Total fund balances   | \$12,942,555                                    | \$11,068,965  | \$10,174,429   |  |

At the end of FYE 2002, after achieving the goal of restoring Undesignated Reserves to a fiscally prudent level (greater than 15% of General Fund operating expense), the Air District requested transfers to establish Special Reserves for anticipated projects and future obligations, i.e. Building and Facilities, PERS Funding, and Radio Replacement. At the end of FYE 2003 the Air District requested transfers to create a Reserve for Production System and a Reserve for Capital Equipment. At the end of FYE 2004 the District requested a transfer to create a Reserve for Workers Compensation Self-Funding (\$1,000,000). During FYE 2008, the Board requested a reserve for Economic Uncertainties.

#### APPENDIX D

#### FIGURE 1

# SOURCES OF REVENUE AND AVAILABLE FINANCING TRENDS

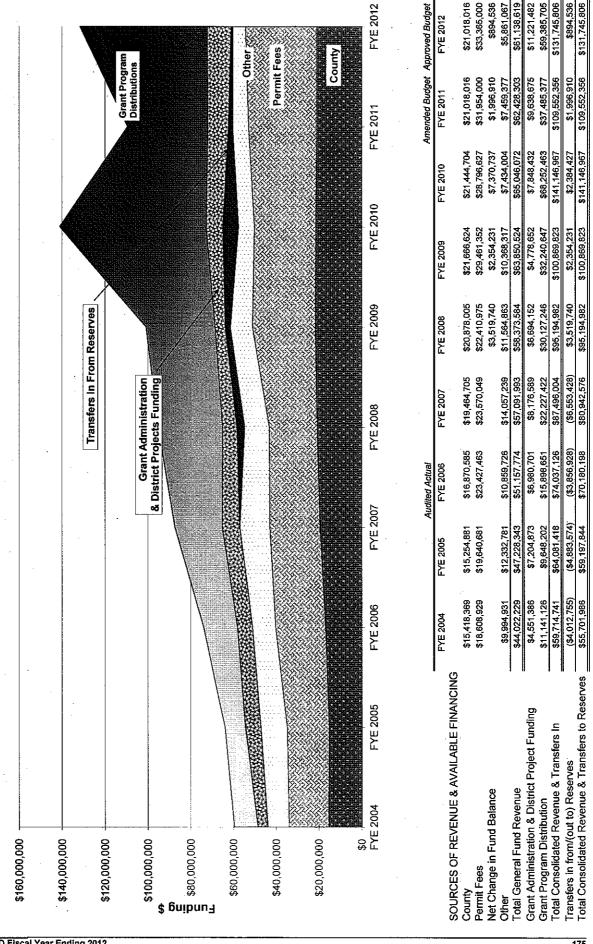

Figure 1 on the following page graphically displays the trends in the sources of revenue and available financing utilized to fund expenditures each year since FYE 2005. Below the graph are the exact dollar amounts upon which the graph is based.

As seen from Figure 1, permit fees are the District's largest single source of revenue. Permit fees increased steadily from FYE 2004 through FYE 2011, and are projected to increase approximately 5.0% in FYE 2012. County revenue has increased at a similar rate, in spite of a 10% reduction in both FYE 2005 and FYE 2006, and is projected to have no increase for FYE 2012. Other sources of current revenue remained flat in FYE 2011, and is projected to decrease by 1.6 million in the proposed FYE 2012 budget.

A trend of Fund Balance transfers to General Reserves ended in FYE 2008 since being initiated in FYE 2000, since FYE 2008 the District has needed transfers from General Reserves to maintain programs.

TFCA, as a funding source that is restricted to eligible projects that reduce air pollution from vehicular sources, is not as relevant when assessing the impact of the revenue stream on fulfilling the District's non-vehicular air quality mandates. These are all projects that did not exist within the District before funding through TFCA became available, and only two of the District's activities are eligible for funding through TFCA. However, TFCA has played an increasing role in the total District revenue.

Consolidated Sources of Revenue and Available Financing, including Grant Program Distributions Figure 1

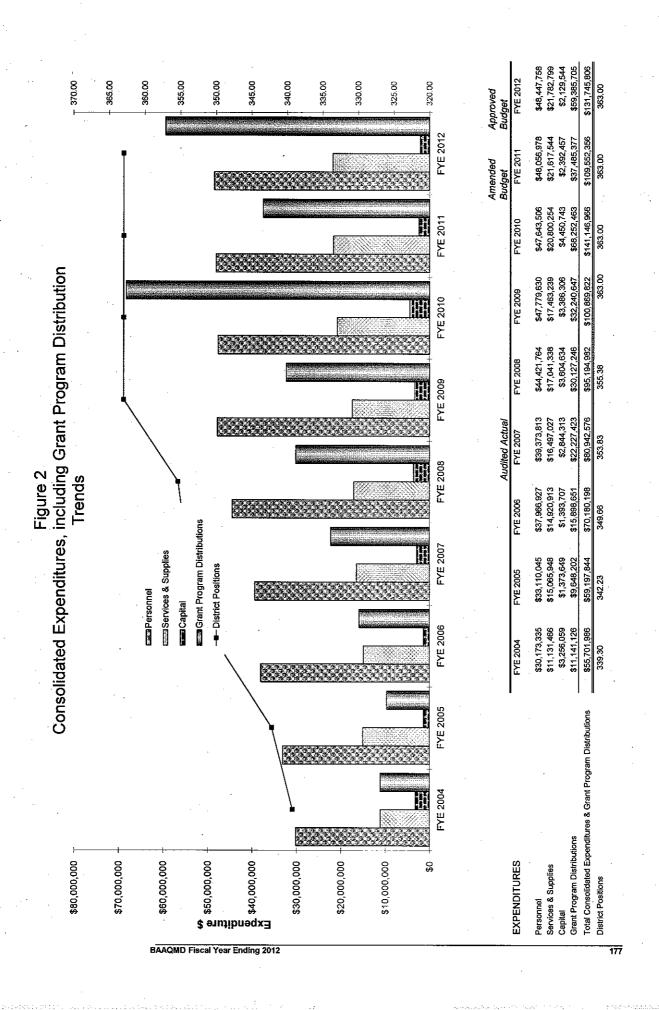

#### **APPENDIX E**

#### FIGURE 2

#### **BUDGETED EXPENDITURE TRENDS**

On the following page, Figure 2 shows the trends in actual expenditures from FYE 2004 through FYE 2010 along with the amended and proposed budget expenditures for FYE 2011 and FYE 2012, respectively. From FYE 2004 through FYE 2010, actual total consolidated expenditures have risen at an average rate of 7% per year from \$44.56 million to \$72.89 million. The General Fund, shows a projected decreases in expenditures of \$1.1 million in FYE 2012.

#### **APPENDIX F**

#### FIGURE 3 AND DETAIL

#### PROJECTED REVENUES AND EXPENDITURES

#### Revenues

County Property Tax revenue is expected to remain flat this year based on housing valuations and county receipt information, with projected underlying increases in future years of not more than the allowable 2% of Secured Taxes, as stipulated under *Health & Safety (Code)* Section 40271. The Code established the funding formula by which the District receives its revenue from this source.

Permit Fees should continue to increase in accordance with the Cost Recovery study as the Air District will implement the recommendations contained in the study. The Air District has also established the use of the Cost of Living Adjustment (COLA) as a means to maintain the costs associated with processing operating permit renewals and new and modified permit requests.

Restoration of the State Subvention decrease, which was instituted four fiscal years ago, has been realized and State funding for FYE 2012 will remain at the \$1.7 million dollar FYE 2011 amount. The Air District anticipates steady increases in funding through Federal Grant Assistance Programs.

Asbestos funding should also remain constant over the next three years. Air District staff has determined that requests for asbestos demolition and removal may continue to decrease for at least one to two years.

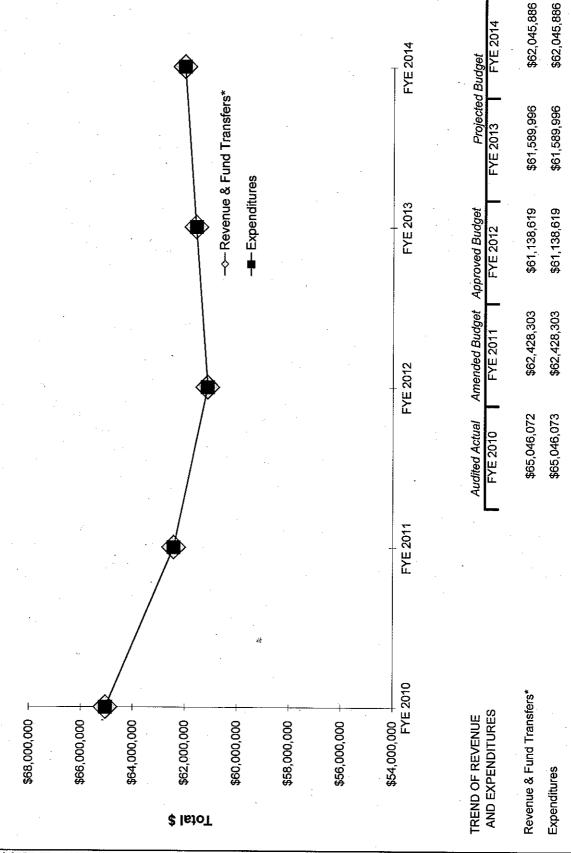

#### **Expenditures**

Medical benefit costs will continue to increase.

Services and supplies will remain relatively steady.

Capital expenditures will increase as the Reserve for Production System is deployed, and will begin to diminish after the Production System project has been completed.

#### APPENDIX G

#### **DEFINITIONS**

AB 434 (Assembly Bill 434) – This enacted bill resulted in *California Health and Safety Code* Section 44241 which authorizes the District to levy a fee on motor vehicles registered in the District. The revenue must be used to fund specified programs aimed at the reduction of air pollution from motor vehicles. The bill allows the District to allocate not more than five percent (5%) of the fees distributed for administrative costs. See TFCA (Transportation Fund for Clean Air).

AB 923 (Assembly Bill 923) – This enacted bill allows an additional \$2 surcharge on Motor Vehicle Registration fees for MSIF (Mobile Source Incentive Fund).

**AHM (Acutely Hazardous Material)** – Those materials that have been defined as such by either State or Federal regulations as being hazardous to human health.

AIRS (Aerometric Information Retrieval System) – Computerized information system as delineated by the EPA (Environmental Protection Agency).

APCO - Air Pollution Control Officer - Appointed by the Board of Directors.

**Appropriation** – A legal authorization to incur obligations and to make expenditures for specific purposes.

**Association of Bay Area Governments (ABAG)** – Regional agency covering the nine counties of the Bay Area, responsible for population projections, various services for local agencies, and co-lead agency for federal air quality planning.

**A&WMA (Air & Waste Management Association)** – The international nonprofit organization of regulatory, business, academic and research communities for air and waste management professionals.

**BACT (Best Available Control Technology)** – The lowest achievable emission rate to be applied to new and modified stationary sources pursuant to the District's New Source Review permitting program.

**Board** – Board of Directors and also Hearing Board. The Board of Directors is the governing body of the District. The Hearing Board is appointed by the Board of Directors. (See Programs 121 and 122),

**CARB or ARB (California Air Resources Board)** – The State agency responsible for setting California Ambient Air Quality Standards (CAAQS) and motor vehicle emission standards, and for overseeing implementation of the California Clean Air Act.

**California Clean Air Act 1988** – Statutory scheme to reduce air pollution from stationary and mobile sources as set forth in *California Health and Safety Code* Section 39600 et seg.

CEC (California Energy Commission) – The state agency responsible for energy policy and planning.

**CAPCOA (California Air Pollution Control Officers Association) –** Organization comprised of local air pollution control officials; human resource and fiscal staff are also members.

**CEMS – (Continuous Emissions Monitoring Systems) –** Technology that allows the District to measure certain emissions on a continuous basis.

**CEQA (California Environmental Quality Act)** – State law that requires public agencies to analyze environmental impacts of proposed projects and plans. (*California Public Resources* Code Section 21000 et seq.)

**CFC (Chlorofluorocarbon)** – Any of a group of compounds that contain carbon, chlorine, fluorine and sometimes hydrogen and are used as refrigerants, cleaning solvents, and aerosol propellants and in the manufacture of plastic foams.

**Clean Air Act Amendments of 1990** – Revisions to the Federal legislation governing air quality planning and control programs to meet National ambient air quality standards.

**CMA (Congestion Management Agency) –** Countywide agency responsible for preparing and implementing congestion management programs.

**CMAQ – (Congestion Mitigation and Air Quality) -** The District receives funding under this grant to fund the Spare the Air campaign.

**Contractual Services** – Services rendered to a government by private firms, individuals, or other governmental agencies.

**COLA (Cost of Living Adjustment)** – An adjustment to salaries based on the increased cost of living as defined by the percent change in the U.S. Department of Labor's Consumer Price Index.

DAPCO (Deputy Air Pollution Control Officer) – Deputy Officer to the APCO.

**Environmental Justice** – The fair treatment of people of all races and incomes with respect to development, implementation, and enforcement of environmental laws, regulations, and policies. Fair treatment implies that no person or group of people should shoulder a disproportionate share of negative environmental and economic impacts resulting from the execution of environmental programs.

**EPA (Environmental Protection Agency)** – Federal agency that oversees air, water and waste management. An assistance grant is provided to various agencies in their efforts to reduce air pollution.

**EPA 103 Grant** – Provides funding for all aspects of operating the PM<sub>2.5</sub> fine particulate monitoring program as well as BioWatch, the National Air Toxic Trends Study (NATTS) Program and other supplemental study programs awarded by the EPA.

**EPA 105 Grant** – Grant pursuant to federal Clean Air Act Section 105.

**Fiscal Year** – A twelve-month period designated as the operating year for accounting and budgeting purposes in an organization; July 1 through June 30 is the fiscal year for the District.

**FICA (Federal Insurance Corporation Act) Replacement Benefits** – In 1981, District employees elected to terminate participation in Social Security. FICA costs listed in the budget reflect the replacement benefit premiums paid in lieu of Social Security.

**Fixed Assets –** Assets of long-term character that are intended to continue to be held or used, such as land, buildings, machinery, furniture and other equipment.

**FTE (Full-time Equivalent Position)** – A position converted to the decimal equivalent of a full-time position based on 2,080 hours of work per year.

**Fund** – A fiscal entity with revenues and expenditures that are segregated for the purpose of carrying out a specific purpose or activity.

**Fund Balance** – **Designated** – That portion of the unreserved fund balance designated by the governing body to indicate tentative plans for financial resource utilization in a future period.

**Fund Balance** – **Reserved** – That portion of the fund balance obligated by the issuance of purchase orders or contracts (encumbrances), or otherwise obligated and unavailable to meet the District's operating expenditures.

**Fund Balance – Undesignated –** That portion of the unreserved fund balance that represents the accumulated surplus which, as specified in the *California Government Code*, is restricted to the following uses: to meet cash requirements before the proceeds from revenues are available, to meet emergency expenditures, and at the end of each fiscal year to meet current year operating or subsequent year budget deficits.

**Fund Balance – Unreserved –** That portion of the fund balance available to finance District operating expenditures.

Fund Balances – The equity accounts for the governmental fund types.

**IRIS (Integrated Reporting Information System) –** The name of the District's database conversion project.

**MACT (Maximum Achievable Control Technology)** – EPA standards mandated by the 1990 amendments to the Federal Clean Air Act for control of toxic air contaminants.

**Metropolitan Transportation Commission (MTC)** – Bay Area regional agency responsible for transportation planning, financing and coordination; co-lead agency for Federal air quality planning.

**MSIF (Mobile Source Incentive Fund)** – The Air District's grant program for allocating revenues from an additional motor vehicle registration fee surcharge for implementation of eligible projects.

**NOV (Notice of Violation)** – A written citation informing a facility, or individual, that it has violated a specific air quality regulation or rule.

**OVA (Organic Vapor Analyzer) –** Hand-held analyzer used to detect organic vapor leaks from valves and other chemical and refinery equipment.

**PERS (Public Employees Retirement System)** – The retirement system contracted by the District to provide retirement benefits to employees.

**Program Budget** – A budget that allocates financial resources to functions or activities of government, rather than to specific types of expenditure, or to specific departments.

PSM (Process Safety Management) - Federal OSHA regulation that requires industrial safety audits.

Request for Proposals (RFP) - A document requesting bids to provide specified services or supplies.

**RMPP (Risk Management and Prevention Plan)** – State Program that the District monitors to prevent accidental releases of hazardous materials.

**SIP (State Implementation Plan)** – Bay Area portion of California plan to attain and maintain national ambient air quality standards.

STAPPA/ALAPCO (STATE AND TERRITORIAL AIR POLLUTION PROGRAM ADMINISTRATORS AND THE ASSOCIATION OF LOCAL AIR POLLUTION CONTROL OFFICIALS (STAPPA/ALAPCO) – Represents Air Pollution Control Agencies in 54 states and territories and over 165 major metropolitan areas across the United States.

**State Subvention Revenue** – Pursuant to Part 2, Chapter 5 of the *California Health and Safety Code*, the California Air Resources Board must subvene and distribute funds to Districts engaged in the reduction of air contaminants. The distribution is based on a per-capita basis of population contained in the District.

**T-BACT (Toxic Best Available Control Technology)** – The lowest achievable emission rate for toxic air contaminants at new or modified stationary sources.

**TCM (Transportation Control Measure)** – A strategy to reduce vehicle trips, vehicle use, vehicle miles traveled, vehicle idling, or traffic congestion for the purpose of reducing motor vehicle emissions.

**TFCA (Transportation Fund for Clean Air)** – The District's grant program for allocating revenues from a motor vehicle registration fee surcharge to public agencies for implementation of eligible projects that reduce motor vehicle emissions.

**UNIX** – A computer operating system.

**UTM** – A coordinate system for geographical locations.

**Vehicle Buy Back** – The District's sponsored incentive program for the scrapping of 1985 and older models funded under TFCA. The program will pay eligible owners \$650 to contract with a specific auto dismantler to have their vehicle dismantled.
